

Hunt Physician In Chicago

Norman Baker

(HIMSELF)

HOW DO THEY DO IT?—Wisconsin farmers shipped potatoes to 27 states and to Cuba during season of 1929 and 1930. Why don't Iowa farmers and Illinois farmers market like that? YOU CAN DO IT, but you need organization, different from what you now have. EACH for EACH should be your motto—not one AGAINST THE OTHER.

The farmers will become more successful—make money faster—grow rich and become independent more quickly—if they will organize to RUN THEIR OWN BUSINESS and not let others run it FOR THEM. This statement is 15 years ahead of the times—but the DAY IS COMING—you fellows who have kicked them around like a football for the past 50 years will get a jolt one of these days that will end all.

SUNSHINE—the old sun is a good way off—if you could travel in a plane at the rate of TEN THOUSAND MILES PER HOUR, in thirty-two months you would reach it—far away as it is, its rays have proved more important to health than anything else known to man. Sunshine does not enter.

WATER AND LOTS OF IT, at least that's what the farmers near Hoover Dam think—for years their crops did not amount to much—but now this large dam in the Colorado river will supply hundreds of thousands of acres with moisture and the farmers will leap from a life of near poverty to one of plenty—the water it impounds would cover an area as large as the state of New York and put ONE FOOT of water over the entire area.

A SENATOR says that the government should open its treasury and help all the sick, the poverty stricken, the aged, the unemployed and become a WET NURSE for everyone—sounds good—but maybe those conditions are an act of Providence as punishment for the lazy, shiftless and extravagant groups—some meet those conditions unfortunately but a vast number simply DO NOT CARE, their ideals in life have never been high enough—their ambition slight—their determination weak. To give free aid to the undeserving would mean bankruptcy soon.

QUICK RICHES—an American—an Englishman—an Australian—all three won ONE MILLION DOLLARS by holding the lucky ticket in a British steepsheep—what about the EIGHT MILLION FIVE HUNDRED THOUSAND dollars spent by THREE MILLION men and women who didn't get a dime. Your chance to win such things is ONE IN THREE MILLION, if you want to take that chance—go ahead—but if you have horse sense you will keep your money.

WORLD WAR SOLDIERS—they have spent a lot of money in the past few weeks since getting their advance payments. The day of awakening will soon come—the money from Uncle Sam will be all gone, and THEN WHAT? The boys were not treated right—they should have been paid pensions like the Civil War and Spanish War Vets—those fellows received only a small amount monthly, increasing with age, and now some of them are receiving ONE HUNDRED DOLLARS MONTHLY, and for the rest of their lives, while the World War boys will get theirs quickly, spend it all and in old age will be in want. Wall Street will have their policies and collect the interest. Boys, you won in the war, but Wall Street still exists.

Outside of some government road building, I don't see much that points to the business recovery—it's coming though—just wait.

HAWKS BREAKS PARIS-LONDON PLANE RECORD

Travels Between Two Cities in Less Than Hour

By CHARLES A. SMITH

(Copyright International News Service)
BOSTON, AIRPORT—London—(INS)—Sighting in Europe at 200 miles an hour is "great fun," Captain Frank M. Hawks, American speed flier, told International News Service in an exclusive interview here today following his return from Rome.

The airman took "time out" to describe his bird's-eye tour of the European continent a short while after he had added a new record to his impressive string by reaching Heston airport from Le Bourget flying field in 56 minutes, the fastest ever made between Paris and London. The 229 mile jaunt was the last leg in Hawks' flight to Rome and back.

Three Miles A Minute
"Some people may think they can't see the sights of Europe while speeding through the clouds at three miles a minute and more," Hawks declared.

"But they're wrong. I saw more per square mile than any tourist ever did."

"The French countryside," Hawks said, "looked much like some parts of the United States, but I saw more people working in the fields with primitive horse ploughs than ever would be seen in America."

"Switzerland was just a mist with white-capped mountain peaks poking their noses up through the clouds once in a while."

"I didn't like that part of the light. Those peaks looked treacherous."

"Italy was very beautiful, especially when I looked at the Roman Forum which carried me back to the days of the Caesars."

"All along the way a common-sense perspective came. That was the most picturesque part of the flight."

Captain Hawks, who has earned the soubriquet in England of "the human bullet," crossed the Atlantic in 15 hours, 21 minutes, and 14 seconds, the fastest of his return journey his constitution balked at high altitudes.

"I was rather frightened on the way back," he said. "I haven't been feeling well lately, and when I got up around 18,000 feet I began to get 'woody' and was afraid the rarified air might make me pass out."

"So instead of pushing up over the Alps I decided to follow the coast."

Captain Hawks said he would attempt the round trip again sometime within the next two weeks and felt confident he would reach Rome and return within the space of twelve hours.

"I will probably go via Nice to cut out the Alps," he said, "making a stop at Lyons each way."

Ohio Lays Rules Against Compulsory Vaccination Law

COLUMBUS, O.—(Special)—Prosecutor Hoskins has prepared to carry to the supreme court an appeal from the "vaccination ruling" of Judge H. W. Jewell, Delaware, sitting in juvenile court here.

Judge Jewell held that inasmuch as vaccination is not compulsory in Ohio it cannot be made the basis for a criminal action.

And that is why he directed a jury to return a verdict of not guilty for John Loar, Madison township farmer, who was on trial on a charge of contributing to dependency of his two children.

The state charged that Loar failed to educate his children properly because they didn't attend the Brice school, where vaccination was made compulsory by the Madison township school board. The children are Mary Louise, 14, and Doris Virginia, 13.

Incensed at the ruling, the school board held a meeting Monday night, drawing up a resolution asking Prosecutor Hoskins to carry the case to the supreme court for a decision.

The WEATHER man says

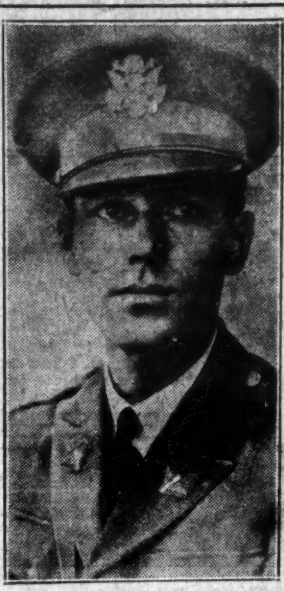

IOWA: Cloudy tonight and Friday, rain or snow south of Des Moines; continued rain. Approximate high for next 24 hours. For northern Iowa between 30 and 35 degrees above zero, for southern Iowa, between 25 and 35 degrees above zero. Skies will be generally clear.

WISCONSIN: Friday mostly fair, not quite so cold in central and west portions.

MISSOURI: Rain tonight and Friday; continued rain.

GENERAL FORECAST: Rain or snow will cover over most of the southern half of the north-central states within the next 24 hours, while in the north-central half, generally speaking, temperatures will remain low for the season. Frost or freezing temperatures will occur tonight in most northern and in some central areas.

Crash Victim

Above is a photo of Lieut. Marvin Marion Burnside, 29, Army Air Corps pilot, a former resident of Muscatine, who was killed Tuesday morning when his single-seated pursuit plane crashed at Fort Stotsenburg army post, Philippine Islands. It is not yet known whether burial will be made here or at the National cemetery at Arlington, Va. His parents, Mr. and Mrs. Edward O. Burnside, live at 215 West Third street.

TEXANS START ON MAN HUNT

Tracking 15-Year-Old Girl

SAN ANTONIO, Texas.—(INS)—One of the greatest manhunts in the history of southwest Texas was being conducted by authorities and hundreds of citizens today for a Mexican youth, suspected of attacking 11-year-old Merle Springer and stabbing her to death with a pen-knife late Wednesday near Leming, 40 miles from here.

The girl's body, only partially clad, was found in a ditch 300 yards from her home late last night by her parents, who instigated a search for her when she failed to return from school. She had been stabbed 35 times in the chest with a sharp pointed weapon.

A 17-year-old Mexican farm hand, missing since late Wednesday from the farm on which he worked, is sought in connection with the crime. Officers refused to say what evidence linked him with the murder, but they were concentrating their efforts on their hunt for him.

Later, Atascosa county officers found a bundle of bloody clothing near the scene of the killing and bloodhounds were rushed from San Antonio to aid in the search.

The farm hand, neighbors said, was in the habit of speaking to the Springer girl as she passed each evening and she sometimes stopped for a few minutes to chat with him. He failed to appear at his home last night, following the murder.

The search, which started early last night, grew in scope during the night and by early today hundreds of thoroughly aroused citizens, as well as officers from three counties, were engaged in the hunt.

Beer Confiscated In Rapids Raid

CEDAR RAPIDS.—(INS)—Alex C. Landmichi was scheduled to appear before the grand jury here today following a raid on his home last night.

Sheriff Joseph Apetius and a force of deputies confiscated 106 bottles of beer, 40 gallons of wine and a gallon of alcohol. According to the officers, Landmichi was serving his drinks across a specially fitted bar. Six customers in the place at the time of the raid were not disturbed. It was said.

Brooklyn Bandits Escape With \$50,000

NEW YORK.—(INS)—Bandits held up employees in the office of E. W. Bliss company, in Brooklyn, today escaping with \$50,000, police reported. One man was shot during the robbery.

Three Steel Workers Die In Bus Crash

GARY, Ind.—(INS)—Three employees of the steel mills were instantly killed today when, riding to work, their automobile was struck at an unguarded grade crossing by a Pennsylvania train.

FRISCO HANGING IS LINKED WITH GIRL'S SLAYING

San Diego Authorities Seek for New Clues

(Picture on Page 10)

SAN FRANCISCO.—(INS)—Discovery of a similar hanging near here today made this city the center of a search for a possible solution in the death of Louise Teuber, 17, whose unclad body was found hanging from a tree on the outskirts of San Diego last Sunday night.

In a cemetery ten miles south of here, the body of John Porcellano, 40, a spiritualist, was found dangling from a tree under circumstances closely resembling the girl's mode of death.

The body was found Tuesday, but the details were not revealed until the case came under the keen eyes of a woman deputy-coroner, Mrs. Luella D. Pepper.

Same Kind of Knot
Apparently, Porcellano had committed suicide by stepping from a box after he attached a rope to his neck and slung the other end over the branch of a tree.

The "sailor's knot" which figured in the hanging of Miss Teuber also figured in the man's hanging. Mrs. Pepper reported. The other end of the rope was tied about the tree with half hitches similar to the San Diego case, Mrs. Pepper added.

Mrs. Pepper was struck by an observation in view of the fact that human flesh had been found under the dead girl's fingernails. On the face of the man, she reported, were numerous scratches and gouges as though made by fingernails. Similar marks were noticed on the hands.

Police also have learned this morning that a spiritualist, known as "The Spirit," who lives on a ranch at Salinas, said they had not seen Porcellano for several years. But they recalled his interest in mediums and spiritualists.

"He was mysterious and sort of spooky," she said. "He never used to set his foot inside the house, but would stand on the sidewalk and talk. He didn't stay in one place long, but kept moving about, and he spent most of his money for spiritualist literature and study."

Southern California police in the meantime today announced that blood clots on the neck of the dead girl indicated that she may have been alive but unconscious while suspended from the tree.

From the sheriff's office came the information that poison or some other clue had been uncovered by the chemists.

Alleged Leader Of Love Mart May Enter Guilty Plea

SAN DIEGO, Cal.—(INS)—Olive Day, alleged head of the Hollywood love mart, attempted to plead guilty when she, Alexander Pantages, John M. Mills, Rich real estate man, Jesse Shreve and William Jobelmann, were arraigned before Superior Judge C. N. Andrews today.

Pantages obtained a stay until next Tuesday to read Lydia Nitto, 17-year-old Los Angeles and New York Italian girl, into an immoral life.

Mills, real estate man, was the only one to enter a plea. He pleaded not guilty to two complaints and his trial was set for May 25. The trial date, however, was subject to change.

Shreve and Jobelmann withheld their pleas until next Tuesday.

Head of Religious Cult Declares War On Lowly Bathub

CHICAGO.—(INS)—William Glenn Voliva, overseer of the religious colony at Zion, who recently took a trip around the world to prove that the sphere is flat as a pancake, today announced that never again will he go near a bathtub.

Voliva's antipathy toward bathtubs dates back a few weeks ago when he severely scalded his foot in one. By not taking risks in tubs, he said he is certain he will live to be 106 years old.

A \$2,000,000 stock issue went on sale at Zion today, following Voliva's action in incorporating all of Zion's holdings as Zion Institutions & Industries, Inc., with a capital stock of \$5,000,000.

Voliva explained the incorporation was necessary to perpetuate the community.

HAHN IS GIVEN \$3,000 AWARD IN LAND SUIT

Had Asked \$30,000 in Appeal from State Valuations

A verdict for \$3,000 was awarded today by the jury in district court in favor of J. Henry Hahn, who had appealed against the finding of a sheriff's jury for a part of his land condemned for state highway No. 32 in Moscow township. Hahn had asked for \$30,000 and the state asked that the amount be fixed not in excess of \$2,750.

The case was presented to the jury at 4:40 o'clock Wednesday afternoon after arguments by the attorneys had taken up most of the day. The verdict was reached at 1:20 o'clock this morning and was read in court before Judge A. P. Barker when court opened at 9 o'clock this morning.

The case was the first jury trial of the March term of district court and was opened last week. Expert witnesses testified for both sides during the course of the trial.

Members of the petit jury who reported today with the expectation of sitting in a criminal case, were dismissed by Judge Barker until next Tuesday morning at 9 o'clock when guilty pleas were entered by four persons against whom indictments had been returned, and who had previously pleaded not guilty.

A criminal case will be tried when the jury reports next week, County Attorney Wilson stated.

Bankers Present More Details in Chicago Inquiry

CHICAGO.—(INS)—Additional representatives of Chicago banking concerns filed before the special grand jury today in connection with the probe into the incomes of seventeen police captains.

On the records of 150 banks, studied since Monday, prosecutors allege that the deposits of at least twelve of the seventeen captains are "abnormal."

Investigation yesterday showed that one captain has had financial dealings with at least nine banks in Chicago. Estimates of his deposits soared as high as \$280,000 and \$600,000, which he asked to forego.

He revealed he had had a number of transactions in real estate.

D. A. R. to Refrain From Taking Slap At Administration

WASHINGTON.—(INS)—Officers of the Daughters of the American Revolution today took steps to avert a possible row with the administration by forbidding their members to take part in the parade of state policemen's new uniforms.

The attitude of the organization was made known when Rep. Hamilton Fish (R) of New York, ranking republican on the house foreign affairs committee, was asked to forego criticism he had voiced in a speech prepared for delivery before the Daughters tomorrow.

Election of Douglas Would Have Averted Civil War, Claim

CHATTANOOGA, Tenn.—(INS)—Had Stephen A. Douglas, the defeated statesman, been elected president in 1860 instead of Abraham Lincoln, the civil war would have been postponed and possibly averted.

It is conclusion was reached by George Fort Milton, now engaged in writing Douglas' biography, after a perusal of 20,000 letters and from Douglas that have been discovered in a barn at the home of Robert Dick Douglas of Greensboro, N. C., one of the statesman's grandsons.

Drinking Party Ends In Car Crash Death

ROBINSON, Ill.—(INS)—Internal organs of Willis Dispennet, 22-year-old Robinson youth, who was found dead after an automobile in which he was riding with two other youths overturned were sent to Indianapolis, Ind., today for analysis. The analysis is being made to determine if Dispennet had been drinking and if so, if the liquor was poisonous, authorities declare.

The two other youths, Harold Dorey and Fredland Trump, who were riding in the automobile with Dispennet were uninjured.

Authorities say all three of the youths had been intoxicated. When the body of Dispennet was extricated from the wreckage of the car, the youth was dead, although his body was said to have shown only minor scratches.

We Apologize

The policy of this paper has been and always will be one of fairness to both our readers and advertisers, but no matter how careful one tries to be, there are times when things get into the columns of a newspaper that should not be there.

As president of the Progressive Publishing company, the publisher of this paper, naturally things of an unfair nature that do happen to appear in our columns fall upon my shoulders even though I may have known nothing about it, because many, many little details are handled by various department managers and sometimes in the rush hours they may not receive careful and full consideration.

Advertisements have been appearing in our columns for several days announcing a big sale at 209 East Second street, and finally a larger advertisement appeared in our columns of the same sale but NO NAME was signed to the advertisement. I take the stand that anyone who is ashamed or who for any other reason conducts a sale of merchandise and does NOT SIGN HIS NAME is not treating the public fairly and the public has every right to assume that such failure to sign a name may be for reasons that such sales are not of the highest calibre.

If such things were permitted, anyone could go out and buy a stock of old, shop worn, out of date dresses, stage a big sale with the idea of getting the money and leave town, thus leaving the lady folks with out-of-date dresses, perhaps poorly constructed, and, in the end, those who helped to foster it would be blamed. Besides such advertisements lead one to patronize those who may be objectionable to them.

The advertising copy sent to this office for this sale at 209 East Second street, was ordered by Mr. Roy Glass of Glass Smart Shop, and no further advertising for this sale will be accepted by this paper, nor will any further advertisement of same be given over KTNT.

Since my discovery of these conditions last evening, I find the members of the Advertising Club of Muscatine have also questioned the fairness of the sale, and the lessor of the building has served notice of refusal to renew the lease which terminates Saturday.

I am glad to have this opportunity to explain my stand on this matter and want to assure the readers of our columns that every effort will be made to investigate and remove advertisements before their copy is accepted. The unfairness of such sales can be better understood when we consider the reaction upon all the other leading merchants of the city who sell similar merchandise. Such stores as Hoaglin's, Royal Specialty Shop, McColm's, Theisen's, Batterson's, Adie Bell Shoppe, Bellas-Hess, J. C. Penney & Co., Montgomery Ward & Co., Spurgeon's, Kay-Bee Store, Glick's Economy Store, Finkle's General Store, Iowa Dept. Store, Vogue Specialty Shop, Clara's Fashion Shop and others have at all times carried a standard line of merchandise and naturally place it before the public over their name, as a protection to the buyer.

To permit sales to be conducted, for instance, with a sale of dresses that may be of inferior quality, would make the prices quoted by our leading dealers appear ridiculous in price comparison, when in reality the quality could not be compared.

NORMAN BAKER.

FAIL TO FIND ANY TRACE OF MISSING MAN

Investigating Report He Was Seen in Hotel

(Picture on Page Seven)

CHICAGO.—(INS)—Search was instigated in Chicago today for Dr. Isaac D. Kelley, wealthy physician and clubman, who disappeared from his home at St. Louis Monday night and is believed held by kidnapers.

A mysterious telegram from New York, signed "C. O. D.", received at the Chicago detective bureau, indicated Dr. Kelley was here.

"Dr. Isaac D. Kelley," the telegram read, "was seen on the second floor of the Morrison hotel (a loop hotel) and also 140 feet south of Madison on the west side of the street."

Admitting that the "tip" might have been the work of a crank, Lieut. William McCarthy nevertheless ordered an investigation in the hope that it might be legitimate.

De detectives were sent to canvass the hotel and neighboring streets. St. Louis police there were dubious but said the calls might be preliminary to a demand for ransom. No such demand had been received. Dr. Kelley's wife reported.

NO CLUES FOUND

ST. LOUIS.—(INS)—The drama of "the doctor's disappearance" which centers about the mysterious fate of Doctor Isaac D. Kelley, was in the third day of a continuous run here today with public, police and press eagerly awaiting some kind of an enlightening development.

It is the cloak of absolute mystery which surrounds the case which has made it the chief topic of conversation here.

Police officers today say city and county detectives under the personal direction of Chief of Police George W. Bell, are still searching for the doctor's disappearance.

Yet about the only really definite thing established today is that a conscientious physician, putting duty before personal comfort, drove out into a blustering spring wind and rainstorm Monday night to answer what now appears to have been a fake call and was swallowed from public view by the darkness.

Six Suspects Held
Six suspects were being held today in the apparent kidnapping of Dr. Kelley.

St. Louis county police, who were holding the men, did not indicate they had any evidence against them.

Meanwhile the wife of the doctor reported she had received no demand for ransom.

Chief of Detectives Kaiser received an anonymous telephone message last night saying the doctor was safe in Chicago. Kaiser said it was the work of a crank, but explained it might also be a preliminary negotiation for the payment and subsequent release of the doctor.

Police expressed the belief that Dr. Kelley might be hidden somewhere in Illinois, where a gang of kidnapers recently have been preying on prominent persons.

A purporting witness to the kidnapping has been found by authorities. The man, whose name has been withheld, stated he was near the house to which the doctor had been called, when a man got into the doctor's car and was driven away, followed by another.

Infanta Isabella, Aunt of Alfonso, Is Dead in Paris

PARIS.—(INS)—The Infanta Isabella, 80 year old aunt of former King Alfonso of Spain, died here this afternoon after a long illness.

Despite the gravity of her condition, the Infanta followed the rest of the former Spanish royal family into exile after overthrow of the monarchy, making the journey from Madrid to Paris on a stretch-train.

Immediately upon her arrival, she was taken to the Catholic women's hospice, where her death occurred. The institution is operated by Spanish nuns.

Queen Victoria motored back to Paris immediately from Fontainebleau upon receiving word of the Infanta's death. Alfonso, who is now in London, was notified by telephone.

Burns Son's Hands To Make Him Mind

DANVILLE, Ill.—(INS)—Arthur Elliot of Georgetown, who burned severely the hands of his 4-year old son to break him of the habit of playing with matches and fire, was freed today.

Elliot had been given a six months sentence to the state penal farm, but sentence was suspended pending good behavior.

JUGO-SLAVIA MAKES THREAT

May Join Austro-German Customs Union

By OTTO D. TOLISCHUS
(Copyright International News Service)

BERLIN.—(INS)—Heralding the break-up of the little entente and menacing France's carefully built European structure, Jugo-Slavia is seriously considering adherence to the proposed customs union between Austria and Germany, it was learned by International News Service here today.

Information received from reliable diplomatic sources indicated active preparations were being made by the Jugo-Slavian government to signify its willingness to participate in the pact.

Such action would be a radical departure from the code of international relationships in Europe prevailing from the time of the signing of the treaty of Versailles and would represent a signal victory for Germany in its unceasing campaign against the so-called "French Hegemony."

Since the conclusion of the war, Jugo-Slavia has been an integral part of the "French structure" of Europe. Together with Czechoslovakia and Roumania, it is a member of the little Entente of Nations, a bloc designed for protection against Magyar aggression, as a defense against Bolshevik aggression and for promotion of trade along the Danube.

FROST DANGER PASSED, BELIEF

Rising Temperatures Prove a Relief to Fruit Growers

Danger of frost and freezing temperatures which have prevailed in other sections of the state, was believed to have passed, so far as Muscatine is concerned, according to the official weather forecast today.

Forecast of the past two days which promised low temperatures and heavy frosts for this vicinity, alarmed local fruit growers. No frost was reported here, however. Temperature today rose rather than fell, with the thermometer showing 38 degrees at 7 o'clock this morning, a rise of eight degrees in twenty-four hours.

A drizzling rain fell here today, with predictions of cloudy weather tonight and Friday, and continued cool rain or snow was forecast for the south and possibly north portions of the state.

The stage of the river today was 2.7 feet, a rise of one inch being noted.

With HOOVER Daily

APRIL 21
10:15 a. m.—The Director of the Bureau of the Budget, James C. Kopp, called to discuss budget matters.

10:20 a. m. to 12 m.—The President met with his Cabinet. Cabinet meetings are held regularly on Tuesday and Friday of each week.

12:15 p. m.—The Minister of the Irish Free State, Michael MacWille, called to present George Russell, Irish poet.

12:30 p. m.—The delegation to the second Pan American Conference of Directors of Public Health called to pay their respects.

2:15 p. m.—The President planted an American elm tree in the north. White House grounds as a memorial to George Washington in connection with the Bicentennial Celebration of Washington's birthday anniversary in 1932.

Locomotive Hits Bus, Fourteen Are Killed

BETHUNE, France.—(INS)—Fourteen workmen were killed and twenty-three injured when a locomotive smashed into an auto bus near Labasse today.

The workmen were traveling in the bus to their homes in Lalle when the crash occurred.

MEMORIAL DAY PROGRAM SAME AS LAST YEAR

Rev. Hawley Named
By Committees as
Main Speaker

Memorial day will be observed here Saturday, May 30, with practically the same form of programs as that carried out last year. It was decided Wednesday night at a meeting of the federated patriotic organizations of the city held at Memorial Hall at the court house.

James Corbin, commander of the Shelby Norman post, G. A. R., was again chosen as president of the organization to make plans for the observance, and Fred Bosten was re-elected as vice president. The organization voted to meet again on the night of May 13, to make final arrangements for the celebration.

The exercises are to be held at 10 a. m. at the court house square, followed by the parade through the business district to River view park, where tribute will be paid to the memory of the sailor dead. Instead of the usual custom of decorating the graves of the departed veterans on the afternoon of Memorial day, tentative plans were made for performing this tribute on the night of May 26, between 8 and 9 o'clock. This was proposed as a means of relieving the aged veterans of too great a strain on Memorial day.

Rev. Hawley Speaker
The Rev. J. W. Hawley, pastor of the United Brethren church, was designated as the speaker at the exercises to be held at the court house square, and Father Pfeiffer, pastor of St. Mary's church, was also invited to give an address. A committee composed of Mrs. Milton Frack and Mrs. Anna Wiegand was named to make arrangements for the speaking. The Rev. W. H. Slack, pastor of the Muscatine Methodist Episcopal church, has already been secured to address the Grand Army veterans.

Patriotic songs of each of the organizations will confer with principles of the various schools regarding the appearance of the school children in the parade, and the groups to sing at the exercises. Every child who appears in the parade will be presented with a flag to carry.

Two Bands to Play
Two local bands, the Muscatine Concert band and the Rotary Club Boys band will be invited to participate in the parade, a committee composed of Mrs. M. E. Kennedy and Mrs. W. Dodge being appointed to present the invitation.

The Women's Relief Corps announced its intention of preparing more than 500 wreaths to be used on the graves of the dead soldiers in the local cemeteries. Commander Corbin of the Grand Army post announced that the organization had accepted the invitation extended by the Rev. Vernon Shontz to attend the annual Memorial service to be held at the First Baptist church on Memorial Sunday.

Special Sermon to Feature Service at FourSquare Church

Rev. R. B. Mitchell, pastor of the FourSquare church, Sixth and Cedar street, will preach an illustrated sermon on Memorial day. His subject, "How We Got Our Bible," will be illustrated with a series of slides depicting the colorful history of the Sacred Scriptures. The modern use of the Bible and its translation and distribution in various heathen lands by the American Bible society will also be portrayed.

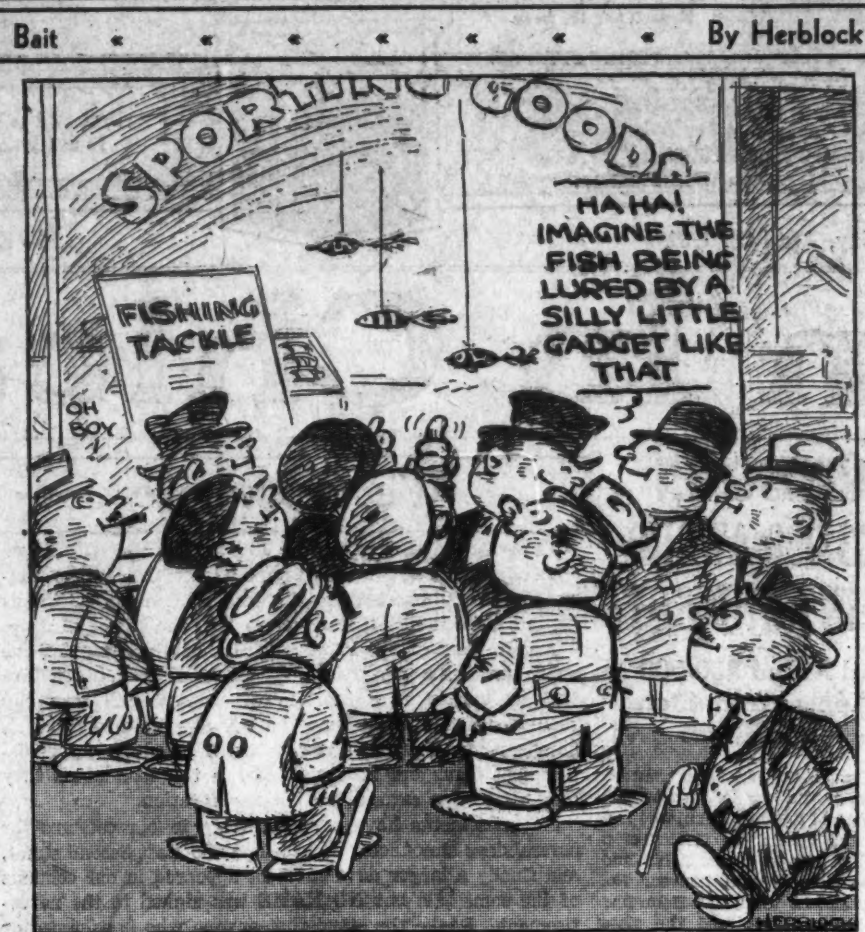

The Monday night Bible class has been showing great interest in this historical study of the Bible under the leadership of the pastor, who was formerly an instructor in Bible introduction and church history at the FourSquare Bible training school in Vancouver, B. C., Canada. Friday night's sermon is the closing message of the series. The minister extends an invitation to the public to attend.

Demonstration in Terracing Will Be Conducted Friday

V. S. Peterson, extension worker of Iowa State college, Ames, who has been here several days awaiting favorable weather, for holding terracing demonstrations on several Muscatine county farms, prepared today to hold a demonstration Friday at the E. W. Hoopes farm in Lake township.

Mr. Peterson has made trips over the county during the past few days with Carl Rylander, county farm agent, during which time he has studied soil conditions. Two demonstrations were cancelled this week because of rain and muddy ground.

Rural residents have better eyesight than city dwellers because the latter's eyes are affected by loud street noises, according to a theory advanced by two Russian scientists.

STERILIZATION LAW ENACTED

Birth Control Bill Is
Approved In
Oklahoma

OKLAHOMA CITY.—(INS)—Third term criminals and persons of unsound mind will be subjected to sterilization to prevent reproduction of their kind, under a measure enacted into law by the signature of Gov. W. H. Murray.

Under the provisions of the measure, drawn by Dr. J. T. Gray of Stillwater, men less than 67 years old and women less than 47 years old will be subjected to the sterilization process. However, right of appeal to the courts is granted.

"Sterilization is not a punishment, but a protection," Governor Murray said after signing the bill. "It is a humane measure for the best interests of all."

Wisconsin Bill
MADISON, Wis.—(INS)—The Wisconsin assembly today passed a bill to permit sterilization of feeble-minded persons in state institutions, and others with inheritable diseases. The vote was 48 to 42.

Iowa Law
DES MOINES.—(INS)—Iowa has a law permitting the sterilization of feeble-minded and criminals but it has proven inoperative.

The house of representatives of the 44th Iowa general assembly passed another similar act which would have given superintendents and wardens of state institutions power to order sterilization operations to be performed, subject to approval by the state board of control and appeal to district courts.

Local Veteran Post Will Observe Date Of Americanization

Marking the birthday of General Ulysses S. Grant, and the annual Americanization, the John L. Kemble Post, Veterans of Foreign Wars, will observe the Americanization rites next Monday evening at 7:45 p. m. at the First Congregational church with a program of organ music and speakers, to be announced later.

The committee in charge of the program is as follows: John G. Wiesland, chairman; Herman Kindler and Mrs. J. G. Dermody, of the Ladies Auxiliary of the post.

The local post and the Ladies Auxiliary are working together in conjunction with the national program, which will be observed by all posts throughout the United States.

Jefferson P. T. A. Meets Wednesday

Approximately 125 members of the Jefferson school Parent-Teacher association met at the school Wednesday night for the regular meeting. At the business session held Mrs. J. D. Fullam accepted the office of president for another year.

The girls' chorus of Jefferson school entertained with a group of three musical selections. The Rev. Vernon L. Shontz, pastor of the First Baptist church, gave a short talk and a two-reel motion picture was shown of city gardening.

VISITORS AT K-TNT

ON APRIL 22
Mr. and Mrs. D. E. Wagner, Kahoka, Mo.
Emmanuel Wagner, Eureka, Ill.
Henry Schmitt, Eureka, Ill.
Henry Garber, Eureka, Ill.

Ernest Dean, Canton, Ill.
Daniel Baum, Canton, Ill.
Valerie Wilhelm, Argyle, Ia.
Lester Peck, Argyle, Ia.
Melba Wilson, Argyle, Ia.
Mills Callison, Argyle, Ia.
Leah Miller, West Liberty, Ia.

JAMES M. YOUNG SUMMONED AT 76

James M. Young, 76, died Wednesday evening at the home of his son, Samuel Young, at the municipal airport, of heart trouble.

Mr. Young was born in Coshocton county, Ohio, on May 21, 1854. In 1878 he married Sarah Shipper, and ten years later moved to this country. Eight years ago he took up his residence with his son Samuel.

He is survived by the widow, two sons, Samuel and William, both of Muscatine; a daughter, Mrs. George Swank of Muscatine; and 18 grandchildren and great-grandchildren.

Funeral services will be held at 3 p. m. Friday from the Meyers funeral home, conducted by Rev. J. W. Hawley, pastor of the United Brethren church. Burial will be made in Greenwood cemetery.

Program Is Given By Girls' Group at Goshen Farm Meet

A mock school program presented by the Camp Fire featured the program given at the regular monthly meeting of the Goshen township group of the Farm Bureau at Atalissa Wednesday evening. Seventy-five were in attendance. A motion picture entitled "A Safe Bet" was shown by Carl Rylander, county farm agent.

The regular meeting of the Wilton township Farm Bureau is scheduled for Friday evening at the Rainbow school. A local program is to be given.

DEEDS RECORDED

The following deeds were filed at the office of County Recorder G. C. Parks:

Raymond Bryant to Sophie Grosjean, lot 16, Warfield's addition, Muscatine.

J. W. Marks to Edward Niebling, lot 62, Fair Oaks addition, Muscatine.

Frank G. Holcomb to Clair Wright, lot 4, block 1, Holcomb's addition, Muscatine.

Edward F. Niebling to J. W. Mark, lot 5, block 138, Muscatine.

J. W. Mark to F. G. McCullough, lot 5, block 139, Muscatine.

Union Savings bank, Wilton, to Manly Hays, lot 10, block 2, Rider's addition to Wilton.

The production of rust free and acid resisting steel is to be begun in Norway at a plant that will have an annual capacity of between 40,000 and 50,000 metric tons.

ANOTHER IOWA BANK ROBBED

Two Bandits Obtain
\$1,000 in Cash at
Burr Oak

BURR OAK, Ia.—(INS)—Bank bandits today had included the Burr Oak Savings bank among its victims. Tying eight persons and locking five of them in a vault, two hold-up men late Wednesday afternoon robbed the local institution of approximately \$1,000 and escaped in an automobile.

The bandits parked their car a block down the street and walked to the bank leaving no one in charge of the machine, according to M. O. Saitre, cashier, who was at work when the men entered.

"Stick 'em up," commanded one of the robbers, according to Saitre. Mrs. Raymond Young and Melvin Underbrake, assistant cashier, and Saitre were being tied when F. Arnold and Mrs. Henry Loyless entered the building. All five were bound with their hands behind their backs and ordered into the vault and the door was locked.

As the bandits were scooping up the available cash from the counters three other persons entered the building. They were Rex Ward, M. R. Walker, and John McQuinn. All were tied and ordered to lie on the floor. Working nervously but with no great amount of haste, the two men gathered up the money and walked to their automobile, which bore a Wisconsin license, and sped away.

Saitre in the meantime, managed to work his hands free and release himself and his fellow prisoners by means of a safety device in the vault.

Fox Manager Back From Kansas City

John W. Creamer, manager of the Fox Palace theater, returned to Muscatine this morning after attending a two-day meeting of theater managers and officials of the Fox corporation in Kansas City, Mo. Theaters in the midland division, which includes 27 cities in Kansas, Missouri, and Iowa, were represented. Problems of admission charges, house policy and film buying were discussed. Creamer was able to point out that his theater had the honor roll of houses in this division for the month of March.

Creamer expects a visit from Fox officials late this week.

Finish New Sewer In Fourteen Days

Work on the \$5,462.31 sewer to serve Roscoe and Fullam avenues was finished today by John Hogan & Sons of Green Bay, Wisconsin, the contractors.

The sewer is made of concrete pipe ranging from 8 to 15 inches in diameter. It connects with the main trunk sewer. Work was begun April 10.

Weather conditions have delayed work on the new sewer which will serve residents of Newell and Kinder avenues and Logan street. The sewer will be completed in two or three weeks, City Engineer H. H. Fitzgerald says. This sewer, which will cost \$7,808.95, is being laid by the Brogan company.

A novel serving tray is equipped with folding legs that drop at the touch of a button to enable the tray to be used as a table.

HARDING URGES FARMERS INSIST ON WATERWAYS

Former Governor of
Iowa Cites Advan-
tages of River's Use

DES MOINES.—(INS)—Farmers from the north Mississippi valley must insist upon the carrying out of government plans for the improvement of inland waterways if they are to compete with farmers in other countries and with business interests of other occupations.

W. L. Harding, ex-governor of Iowa, told delegates to the Western Grain Dealers Convention here. Mr. Harding pointed out that certain interests were opposing the announced policy of the government to improve navigation on the Mississippi river and its tributaries, but the work has gone too far and the benefits are too evident to stop now.

The world is the market of the farmer and transportation that entails the least cost to distant markets "is on the bosom of the water, lake, river, ocean," the speaker stated. He called attention to the cheaper rates available to the agriculturists of other countries because of their use of waterways for transportation.

More Water Necessary
Necessity of having more flow of water from tributaries into the Mississippi river if the latter is to have a nine-foot channel, was described by Mr. Harding. He declared that water should be diverted from Lake Michigan down the Illinois river to provide part of the increased flow.

"If the North Mississippi Valley is really alive to its interests, and to the importance of outlets to the ocean they will present a united front on this Illinois River demand for water for navigation at this time," Harding declared. "Delay is dangerous and fraught with many hazards."

The question apparently is—shall the waters of Lake Michigan be used for power interests along the St. Lawrence River or for the interests of the farmers, the speaker asserted.

"Some things happened a few years back that caused the economic status of the farming area of the North Mississippi Valley to cease functioning properly," Harding said. "As I view the situation, two things that happened are of prime importance. Other things happened, but these two things, in my opinion were basic."

"First, the building of the Panama Canal; Second: the increased cost of rail transportation. And now another thing is happening over which we have no control. I refer to the Russian situation."

Russian Farmer Menace
The phenomenal growth of the Russian farmer is probably the greatest menace to the American farmer of any present situation, the ex-governor declared.

Ocean rates have returned to a pre-war basis while rail rates from the area in which Iowa is located, to the sea-board have increased about ten cents per bushel, so that the European farmer has the advantage of a pre-war rate while the American farmer is still further burdened, it was stated.

"What is the remedy? Naturally, cheaper transportation," said Harding. "Develop the Mississippi river and its tributaries so that the farmer of the North Mississippi valley may have the advantages of cheaper transportation cost."

He stated that cost comparison would show the advisability of insisting on waterway improvement. The cost of hauling a ton of freight on a steel rail is equal to the cost for the same ton of freight for four or five times the distance, he claimed.

Swedish Riksdag has appropriated more than \$6,000,000 to be used in July the electrification of the trunk line railway from Stockholm to Trelleborg and several feeder lines.

A novel serving tray is equipped with folding legs that drop at the touch of a button to enable the tray to be used as a table.

Message Received From Lieut. M. M. Burnside's Widow

Lieutenant Marvin Burnside was killed instantly in the airplane crash that took his life Tuesday in the Philippine Islands, according to a cablegram received by his parents, Mr. and Mrs. E. O. Burnside, from Mrs. Merial Kern Burnside, the widow.

The cablegram was forwarded from the Adjutant General's office in Washington, D. C. It read as follows:

"Following message transmitted at request of Commanding General Philippine Department: Marvin killed instantly airplane crash Tuesday morning. Do not worry about me. I will radio my plans later. 'Fried' Bridges the Adjutant General Washington."

Funeral arrangements and the choice of a place for burial are being left to the wishes of the widow, E. O. Burnside said today. It will take about a month to return the body to this country.

School Musicians Close Season With Concert at Lincoln

Nearly 200 attended the closing concert of the spring series of the combined school orchestras under the leadership of Elmer Ziegler at the Lincoln school Wednesday night.

The best-received number on the program was "You're as Pretty as a Picture," played as a violin duet by Elizabeth Fullgrabe of Franklin school and Dorothy Ziegler of Washington school, and then sung as a vocal duet. This number was applauded until the youthful musicians repeated it.

Financial returns from the series, which are used to buy music and refreshments for the children, were unusually large this series, Ziegler said.

The next concerts will be the fall series, to be given around Thanksgiving time.

SENIOR CLASS ASKS BANQUET

Want Juniors to Re-
ciprocate Spring
Entertainment

With a vote of 220 to 86, favoring "no banquet" for the spring entertainment of the high school junior class to the senior class, the matter was laid over at a meeting held by these classes Wednesday afternoon and will be decided late today whether the junior class will give the senior class a banquet or a reception this year. The votes were mixed between both classes and it is not known how many seniors voted for or against the banquet.

The senior class, realizing that it has been the custom for the juniors to honor the seniors in this manner each year, feels that inasmuch as they gave last year's senior class a banquet at a cost of \$1.50 per student, that they are entitled to one this year.

On the other hand the junior class is trying to model its yearly entertainment after many schools throughout the country by giving a reception. It does not think a banquet is necessary.

Harold Weber, senior class president called another meeting for a late hour today to thrash the matter out. It is said that definite conclusions will be made at this meeting.

The date for the annual entertainment, whether reception or banquet, is set for May 13, the time and place to be named later.

If it is to be a banquet it will probably commence about 6:30 in the evening, otherwise it will not start until 8 o'clock.

The number of automobiles in Chile has increased 230 per cent in six years, the country ranking third in South America in number of cars in proportion to population.

GANGS LEARN TO KEEP OUT OF MISSOURI

Three Leaders Taken Within Last 12 Months

By ROBERT A. HERFORD
ST. LOUIS, (INS)—Missouri, as the result of the capture of three nationally notorious desperadoes within its boundaries in the past five years, is earning the reputation owned by the colorful Northwest Mounted police of Canada, of "gettin' its man."

The "Show Me" state, which has been showing the way itself in the matter of tracking down master criminals registered its latest conquest when red "Killer" Burke, a modern "Jesse James" awoke at his farm hideout near Green City, Missouri to find himself staring into the muzzles of several business-like machine guns.

Fleagle Killed
Less than a year ago, Jake Fleagle, one of the most notorious gunmen the west has produced was shot to death by postoffice agents as he attempted to board a train at Branson, Missouri. The shooting down of Fleagle occurred on October 14 last.

The first of the three notorious criminals for whose capture Missouri was to find itself in the public eye was Marty "Sheik" Durkin, the Chicago killer. Department of Justice agents, aided by St. Louis police nabbed Durkin in a Pullman stateroom as his train pulled into Webster Groves, St. Louis suburb, January 30, 1928.

Clever and interesting detective work on the part of the Government, in the case of Durkin and Fleagle was responsible for their capture. An amateur smalltown detective effected the capture of the dangerous Burke who had successfully eluded the smartest police "master-minds" in the country.

Durkin's Capture
According to an official of the Department of Justice it was Marty Durkin's flare for a certain type of lightpowered automobile that resulted in his capture. When Durkin jumped off E. C. Shanahan, a special agent in charge of the Department of Justice on October 11, 1925 in Chicago when the latter attempted to interfere in Durkin's favorite racket of car stealing the "Sheik" bandit made a fatal mistake. Shanahan's death marked the first fatality in that particular Federal Department since its establishment and Shanahan's budding career as a slayer of his fellow officers must be brought to justice.

The government sleuths quickly learned of Durkin's theft of a high powered car of the type for which he was known to be a weakness from a Los Angeles showroom. He was traced by means of this car to a town in Texas where he was arrested by agents of the Department of Justice.

The "sheik" of a Pullman car where he was captured with his beautiful wife, Irma Sullivan Durkin, as the train pulled into St. Louis.

Lutheran Pastor Denounces Spread Of Birth Control

ESSEX, Ia.—(INS)—Birth control should have no place in the Lutheran church of today, according to the Rev. P. O. Bersell of Ottumwa, president of the Iowa conference of the Lutheran Augustana Synod, who spoke at the opening session of the conference here last night. The Rev. Bersell characterized the use of contraceptives as an act of adultery and declared that the large organization of Protestant churches which recently approved birth control instruction, was "making compromise with the evil spirit of today."

Criticism of the stand of the committee of the federal council of churches of Christ in recommending with limitations, the practice of birth control was voiced by the speaker. Race suicide is a deadly cancer of this nation, he declared. The Lutheran denomination is not a member of the federal council of churches of Christ.

Wade Funeral Is Held at Iowa City

IOWA CITY, Ia.—(INS)—Last rites for the late Federal Judge Martin J. Wade, who died in Los Angeles last week, were held at St. Patrick's church here this morning.

Bishop H. Pam Rohlman of Davenport was celebrant at solemn pontifical mass of requiem, and the sermon was preached by the Rev. Monsignor William P. Shanahan of Iowa City. A host of dignitaries, including federal judges from various districts who acted as honorary pall bearers, were present.

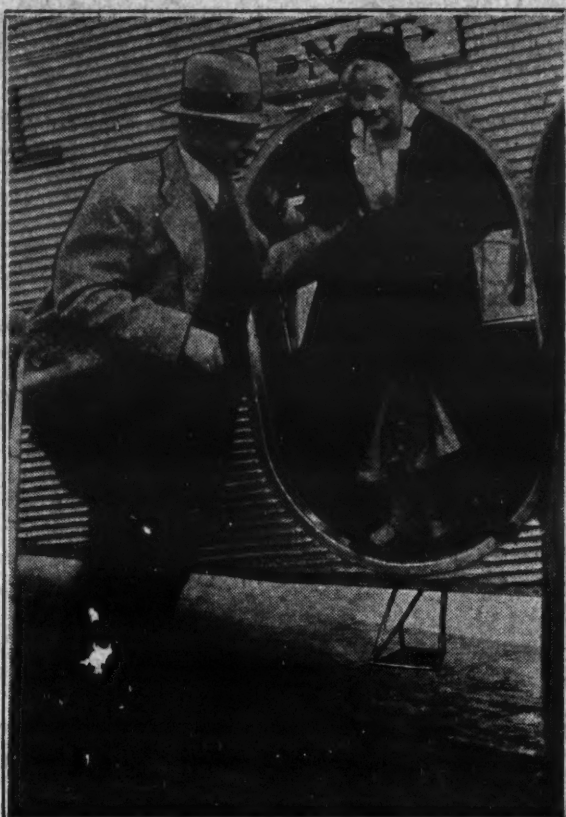

Claim State Probe Clears University

IOWA CITY, Ia.—(INS)—With a declaration that the recent legislative probe has resulted in a "complete and sweeping vindication," merchants today dispatched 1,000 invitations to a rally in support of the University of Iowa administration next Monday.

Prominent men from various cities, students, alumni, faculty members, and friends of the university will receive invitations.

CHESTER, Pa.—(INS)—School boy "racketeering" was revealed here with the refusal of the son of a wealthy man to attend school. Doctors who call to determine whether the lad was ill as he claimed found nothing wrong with him. The story then came out—another youngster who had handed him a "licking" was making demands for money. Over \$4 had gone to the "racketeer" when the son found he no longer could accede to the "high prices" and decided to play "sick" instead.

Girl Seized as Air Stowaway

The above photo shows Policeman Edward J. Carey arresting Betty Roth of Kansas City as she arrived at a Chicago airport on an N. A. T. plane. Betty was a stowaway on the plane. She is 15 years old and came to Chicago seeking a job.

HIGH WATERS PERIL MOSCOW

By EDWARD L. DEUSS
MOSCOW.—(INS)—The central section of Moscow was threatened today by unprecedented floods which already have rendered thousands of persons homeless at Minsk, one of the largest cities of the Soviet union.

Some streets in the central district of the capital were under water by noon and boats were being held in readiness to rescue marooned foreign residents. Four small boats equipped with oarsmen were standing by to take the British embassy staff to "dry land" if the waters continue to rise, while three boats were stationed outside the International News Service bureau.

Water and Lights Cut Off
The floods were caused by torrential rains. The extensive work of raising steadily, inundating the outskirts of Moscow to a considerable depth, despite the efforts of authorities to stem the tide by throwing up bulwarks along the river's edge.

The situation at Minsk was reported extremely serious. The entire city was without light, the floods having short-circuited electric power, and water mains were broken depriving the municipality of its regular water supply.

Central Bakery Periled
Fears were felt that the Central Bakery, a government operated concern, would be rendered useless. The bakery is one of the chief sources of the city's food supply.

The floods played havoc with power houses and mechanical plants, the pressrooms of all newspapers were crippled, and not a single one was able to publish today.

Two mirrors hung to fold together on a central handle have been invented that show the face and sides of the head of a person at the same time.

A Japanese oil company has succeeded in producing gasoline from an oil field in Formosa, where deposits of gas are believed to be inexhaustible.

MRS. M. BAKER, WELLMAN, DIES

Rites Saturday for Woman Well Known in Muscatine

WELLMAN, Ia.—(Special)—Funeral services for Mrs. Mary Baker, who died here Wednesday afternoon, will be held Saturday at 2:30 p. m. from the First Methodist Episcopal church. Burial will be made in the Wellman cemetery.

Miss Mary Shreder was born in Lancaster, Pa., April 15, 1844 and with her parents, moved to Sweetland Center when a child. Her youth and early womanhood were spent in that vicinity.

Surviving is one brother, Samuel Shreder, of Cedar Rapids. Her husband, Frederick Baker, died five years ago and a sister, Mrs. Susan Millhouse, died two years ago in Muscatine.

Mrs. Baker was a frequent guest at the home of Mrs. Clara Heerd, 1116 Oak street, Muscatine, and was well known in that city.

Women Are Victims Of \$14,500 Robbery

CHICAGO.—(INS)—Another robbery attack on prominent persons of Chicago was recorded today with the holdup of Mrs. Clair Ellis More and Mrs. Horace Loomis Hayward from whom two bandits snatched \$14,500 in jewelry. The women, both prominent in society, had been trailed from a loop theater to their homes last night.

As they stepped out of their car, the bandits pushed the chauffeur back into the seat and began stripping jewelry from the necks and arms of the women.

A seaplane that can be taken apart and stowed in a tube in three minutes for carrying on a submarine is being tested by the United States navy.

6 REFORMS FOR NATION ADVISED

Unequal Distribution Of Wealth Deplored By Dr. Eddy

DES MOINES.—(INS)—Six reforms are among the most urgent needs of the United States today, according to Dr. Sherwood Eddy, world traveler and lecturer, who Wednesday night delivered an address at a local church. Dr. Eddy dwelt at length on conditions in Russia, spoke of the great leadership and work of Gandhi in India, and delved deeply into American social and economic conditions.

The establishment of economic justice should be the first reform instituted in this country, the speaker stated as he pointed out the injustice of the unequal distribution of wealth and the prevalence of millionaires. He stated that 17 other nations had unemployment insurance which "is not charity, yet America has left the chaos unsolved."

Inter-Racial Brotherhood
Establishment of a better inter-racial feeling and less discrimination against those persons who are of skin of another color was named as the second reform.

Thirdly he asked for a clean up of politics and stated that the feat of "Big Bill" Thompson in his race for re-election as mayor of Chicago was a step in the right direction.

Preparation for peace instead of for war is a necessary move in America, Dr. Eddy said.

"I am willing to join the 2 per cent of protestants against war who could fill the prisons of the world if it were necessary," the speaker declared.

Need Vitalized Religion
Better relationship between man and woman was named as the fifth reform, as Dr. Eddy approved proper handling of birth control information.

A need for a vitalized religion was named as the sixth needed reform in America.

"There must be a re-adjusted relationship between man and God," Dr. Eddy declared.

Production of sole leather in Cuba has increased to approximately 500,000 pounds a year, more than 92 per cent of the domestic requirement.

(By INTERNATIONAL NEWS SERVICE)

MASON CITY—One of the 65 cases on file here in protest against the paving assessment levied against property owners by the Clear Lake city council today had been decided in favor of the council and upheld its ruling.

Judge M. H. Kepler, Wednesday signed a decree voiding the assessment against the property of Esther Schumacher. It was not indicated whether a similar decision will be applied to the other appeals.

FAIRFIELD—A change of venue was being asked today for the trials of 25 men charged with conspiracy to defraud and cheating by false pretenses in cattle transactions in Jefferson county during the last two years.

The petition asking the change follows the acquittal of John B. Stever, one of the cattle dealers, who was charged with the same crimes filed against the others.

Judge Homer A. Fuller, who presided at the trial of Stever, will return to Fairfield Friday to hear arguments on the petition.

DES MOINES—It is worth \$7,500 to Orval Byers to be falsely accused of stealing a straw hat and a ham. Byers has filed suit for that amount against Earl Wartburg, a neighbor, alleging that Wartburg had made the accusing statements in the presence of several persons.

Prince Labors

Don Kadjar, one of the oil-smear drillers in the rough-and-ready crews at the Raccoon Bend, Texas, oil fields, has been disclosed as Prince Darab Mirza Kadjar of Persia, descendant of a long line of shahs and the heir apparent to the Persian throne. He says he wishes to learn the oil business in order to work the fields in Persia near Mount Ararat. He was a democratic young man, just one of the drillers, until a cameraman appeared. His royal training then dropped out, and he refused to pose in overalls, insisting on changing to formal attire, as shown above. When the camera was put away, he returned to his overalls.

Waterloo Taxicab Ordinance Seeks Driving Paragons
WATERLOO, Ia.—(INS)—Much interest is manifest today in the new Waterloo taxicab ordinance, inquiries from over the middle west would indicate.

Among the provisions of the ordinance are the following qualifications for cab drivers:
Must be at least 19 years old.
Must be able to read and write the English language.
Must be clean in dress, in person and not addicted to the use of intoxicating liquors.
Must produce affidavits of two reputable citizens of the city stating that they have known him personally and observed his conduct during the year previous, and that he is of good moral character.

Alleged Forger, Former Waterloo Man, Is Arrested

BURLINGTON, Ia.—(INS)—Glenn A. Scott, 30, formerly of Waterloo, is being held in the county jail here today charged with cashing nearly \$500 in worthless checks in several Iowa cities, including Waterloo, Burlington, Mason City, Ottumwa, and Hampton.

Scott claims, police say, that he was employed for a time as an engineer in Japan designing buildings that would withstand earthquakes and is a former publisher of a magazine in the Philippines. He is a graduate of the University of Nebraska.

Scott is charged, posed as a salesman at hotels here, and when he returned was recognized by a hotel clerk, who notified police.

Scott is accompanied by his wife, a bride of 10 months. She has appealed to several merchants who have indicated they have no desire to prosecute.

Clara Bow Stories Result in Arrest Of Coast Writer

LOS ANGELES, Cal.—(INS)—Secretly indicted by the federal grand jury and charged with four violations of the penal code relating to dealing objectionable matter in the mails, Fred Girmann, owner and publisher of the "Coast Reporter," was held in jail here today in lieu of \$10,000 bail.

The articles which appeared in the "Coast Reporter" and which resulted in the arrest of Girmann purported to show the love life of Clara Bow, film actress, and were based upon affidavits alleged to have been sworn to by the actress' former secretary, Miss Daisy Devoe.

"These stories," declared United States Attorney McNabb, "are obviously a violation of the postal laws."

Johnny Baker, Foster Son and Aide of Buffalo Bill, Dies

DENVER.—(INS)—Johnny Baker, 62, foster son of the late Col. William F. (Buffalo Bill) Cody, is dead here today after an illness of about a year brought on by overwork.

Baker was Buffalo Bill's constant companion and most ardent admirer from the time he was a small boy. Son of Nebraska pioneers, Baker was attracted by the lure of the wild west show and went to work for Col. Cody when but ten years old.

A few years later he was adopted by Buffalo Bill.

Baker was outstanding as a rifle shot, his stunt in the show being to shoot dimes in the air with a rifle. He toured the world with the show, performing before European royalty on numerous occasions.

Since the death of his hero Baker has devoted his time and efforts to perpetuating the memory of Buffalo Bill. For 17 years he has conducted a museum of Buffalo Bill relics at the top of Lookout Mountain, west of here, where Col. Cody is buried.

Baker is survived by his widow and two daughters, Mrs. W. J. White of Alhambra, Calif., and Mrs. Della Berger of Philadelphia.

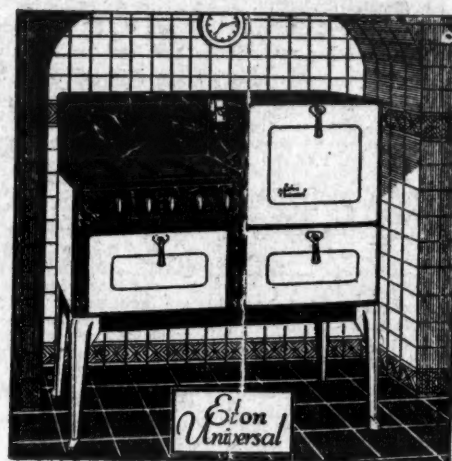

Cedar Rapids Boy Is Killed by Auto

CEDAR RAPIDS, Ia.—(INS)—Investigation of the death of Edward Waddington, 8, was continued here today. The lad was fatally injured yesterday afternoon when struck by an automobile driven by T. L. Petro of Shellsburg.

Petro told police that the boy was in front of his car and stopped in the road. The driver said he thought the lad saw his car approaching.

Edward was rushed to St. Luke's hospital but was dead when it was reached. He suffered a basal fracture of the skull according to physicians.

Applying the Soft Pedal

The conference of governors at French Lick Springs, Ind., in June will avoid many important subjects that should be discussed and consider several questions of less importance, according to an announcement of the program committee. It seems that the idea is to avoid controversies whereas, as everybody knows, it is only through controversies that progress is made.

For instance: It has been decided that the unemployment situation will not be brought up. This is just about the most important problem that confronts all of the forty-eight states at present. It is a problem that demands solution before we can hope to start on the upgrade in our business life. It will not be discussed because it is a controversial subject. Certainly, but why not at least try to meet the issue instead of lying down on the job?

The governors will also refuse to discuss public ownership of utilities and water power, another subject of national interest, nor does the agenda make any reference to prohibition. Just why all these issues are eliminated is not clear unless there is a fear that some of the governors, particularly those from west of the Mississippi, may tread on the toes of the special interests.

The announcement declares that the conference makes it a rule to discuss state rather than national problems except where national problems affect state interests. If this is true then all the foregoing topics should be included as they

are of just as much interest to the states as to the nation.

The conference will consider the excessive cost of local government, land utilization and state planning, motor safety and executive duties and responsibilities. Those are all subjects that need attention, especially high taxes and motor safety, but they should not be allowed to dominate to the exclusion of subjects of equal or more importance.

Power Trust on the Defensive

Mention was made in this column a few weeks ago of a bill passed by the Oklahoma legislature prohibiting power companies from selling electrical devices in competition with retail merchants. A similar bill has been introduced in the Illinois legislature, and promises to set off the fireworks when it is reported out of committee.

Under ordinary conditions such a bill would probably be defeated because of the activities of the power companies but in this particular instance strong support is being given the measure by merchants' associations and many chambers of commerce. Representative Barnes, the measure's sponsor, says he has received over 3,000 letters and telegrams from all sections of the state endorsing the bill. If the people become thoroughly aroused they will win despite the timid attitude of the state's press. The contest will be worth watching.

World Democracy Gaining

For the first time in its history Europe has more republics than monarchies. A recapitulation in the New York Times since the fall of King Alfonso shows that Europe has seventeen republics and fifteen monarchies.

The trend toward a republican form of government is a hopeful sign. It indicates that the people throughout the world are beginning to think for themselves. A government

"of the people" is the best for mankind despite its many drawbacks. No perfect government is possible. There will be disgruntled citizens which is just as well as they serve to provide a balance wheel for those who would otherwise gain power for selfish ends. This nation has drifted in that direction but there will be a limit eventually and the "rule of reason" again will be restored.

Tells It to the Ladies

Will Rogers is more than a humorist; he is a brave man. He demonstrated his bravery in Washington the other evening when he told the members of the Daughters of the American Revolution that Uncle Sam's fighting forces have no business in foreign countries. It takes considerable stamina to stand before such an organization and express opinions directly opposed to its beliefs.

"I have just come from Nicaragua," Rogers declared. "Our marines have been a god-send but they ought to come home. We've got our army and navy messing around in everything. We've been fooling around everywhere. We're in bad now in fifteen countries. I have been told that in all confidence by their big men, and it is time we quit and get back home."

There are millions of Americans who endorse that sentiment. Fiddling around in foreign countries invites trouble. Defending one's country is one thing; messing around in other nation's affairs is an entirely different proposition. The less we have of the latter the better.

Superlative Superlatives

Every so often in reading exchanges we get a "kick" out of some article. We are not referring to those mistakes that creep into every newspaper despite strenuous efforts to eliminate them (and the metropolitan papers are no exception),

but to attempts at flowery elegance in writing that overstep the mark by a couple of hundred feet or so. One of the best of these examples that has come to our attention in many moons is that which was reproduced in an Ohio newspaper which credits it to an exchange. Here's the effusion:

"The elegant home of the sparkling little jewel, Miss Elsie Williams, who is pretty as a picture and as bright as an icicle and as pure as a dew drop and as sweet as a flower, was a sparkling scene of radiant loveliness last night, for this beautiful little maiden and her handsome and magnificently-formed sister had invited a number of their friends to assemble in honor of the beautiful and bewitching Miss Neda Taylor and the charming and fascinating Miss Rosalie Setzer, who are now dispensing their charms and witticisms in Wilson and making so many hearts ache with their intoxicating graces. And we fancy that as our handsome and gallant lads looked down into the radiant depths of such sparkling eyes—eyes whose faintest glimmer would make the glistening skies of blooming midnight pale with envy, turn and no more let their feeble torches burn—yes, we fancy that these boys felt that Cupid had come to their young hearts on a mission as sweet as odors come from vernal breezes and sunbeams woo and kiss the budding bowers and make them breathe the fragrance of springtime's richest flowers."

C. A. Schaeffer reports that Ake Brothers are dentists in Atlantic City.

Our Platform for the People Is:

1. Low taxation.
2. Fewer state commissions.
3. Universal school books.
4. Lower freight rates.
5. Return of river transportation.
6. A cleanup of some state institutions.
7. More efficiency in public offices.

VIEWPOINTS

Have you readers of this column stopped to take notice of the fact that the articles in this column do not say much about disease itself as they do about health and easy and simple means of existing comfortably?

Did you ever stop to think that (health propaganda) continually thrown in the face of the public through fear, by broadcasting the terrible pathology of this and that disease, is doing more harm than good.

There is a difference between keeping a person's mind on their health by the welcome picture of physical comfort and that of forcing a person to worry over their health by showing him terrible pictures of things and conditions he might have unless he did this and so every few months through fear.

"As a man thinketh so is he" and a continual mental picture of some particular disease surely paves the way for an actual demonstration in the physical body of the disease so feared. This idea does not necessarily have to be associated with any particular religious belief although the religious have been proven to be a fact in this field of thought also.

When any disease or physical ailment is described in the Good Health column it is not done with the idea of frightening any reader into the idea that they may develop it, or that it is hiding just around the corner to pounce upon them the moment they put their head out doors. Do you remember when you first tried to ride a bicycle? Some of you older ones especially, when had the big high wheel in front and the little wheel the size of a saucer, hiding down behind, ready to trip over every little pebble. And do you remember how accurately you could bump the old cow as she came along the road at milking time. You hit the cow simply because you had fear in your mind that something would happen. And when the bossy came along your fear developed into a reality and the poor cow was no doubt as badly upset as you were.

The thought, or viewpoint, herein contained is that you cannot be healthy with the constant fear in mind that unless you continually punch, pinch, weigh and have yourself examined month after month you will have some dangerous sickness.

The best insurance, and assurance, against disease is to feel and know that you are all right, and will remain all right as long as you are (moderate in all things). If one is moderate in his ways of living, and surrounds himself with cheerful, congenial surroundings, thus giving nature an opportunity to do her share a happy medium will have been obtained.

The tendency of the forces of life to have better things and if man would cease becoming self-conscious about his physical condition he would not be so afraid, so cross and irritable, and may be not so full of cussedness as lots of them are today.

To reach health through the doorway of fear and over the path of mental disease-pictures cannot be done. It is a false and dangerous course.

As an example. Suppose you were planning an auto tour; you would not have a very pleasant trip if you were continually hunting for trouble. When you were ready to start did you go to the Auto Club and ask them where all the bad roads and detours were? Certainly not. "You asked which were the good roads," you had a mental picture of a pleasant trip. The bad roads, the dangerous roads, while they were pointed out to you, were not emphasized in your mind. They were simply made note of as something to avoid, and you did not carry them in your mind to confuse you so that you took wrong roads, became confused as to directions, or were kept so worried that you forgot some necessity which you meant to take along with you.

There are no two individuals alike and so health cannot be obtained by following a set of rules. What is one man's meat is another man's poison. Every person can learn the ordinary technique and secure the knowledge necessary for common sense hygiene and can be moderate in all things, cheerful and unafraid.

People should not worry over their health, or make such a hobby of it that they cannot live one waking hour without being conscious of themselves physically. Self-consciousness is a detriment as every-one knows and when it applies to the physical condition it leads to a continual suggestive thought of sickness and disease.

Health propaganda in the form of all kinds of disease-suggestive methods is forever being put before the public. Forget sickness and disease and be cheerfully thoughtful of well-being. As long as you know that you are living sensibly for yourself and give nature a chance to function without interference for it is surely interfering with health to be everlastingly fussing and worrying about oneself.

Sometimes a person with what is termed a heart condition will be found always feeling of their pulse, keeping themselves so conscious of the heart that they bring on actual pathological conditions. The body is in many ways a picture of the mind and the fellow who lives inside so be cheerful whenever possible and when some adverse condition gets you down, don't stay down, don't get gloomy, get up and fight, at least mentally if unable to do so physically.

Think for yourself and let the other fellow paint his dismal pictures if you don't want to no matter how badly the other fellow wants your admission fee. When you can't find a good picture to go to stay home with yourself and be in good company. And, when you're feeling fine forget yourself and the sick looking pictures and get interested in your work or your hobby.

Pointed Paragraphs

Learn to say "no"; it's better than "nit."

BOBBY COON FINDS A HOME AT LAST

When Buster Bear started to chase Peter Rabbit it gave Bobby Coon a chance he was not slow in accepting. Buster had given Bobby a terrible shaking up in the past of that young tree, but in spite of that he had his wits about him. He needed them, and he knew he needed them. So the very instant Buster Bear started after Peter Rabbit, down from the tree scrambled Bobby Coon. Never in all his life had he scrambled down a tree faster. He knew that Buster would follow Peter far, and so he Bobby, had no time to lose. He would get just as far from that place as he could before Buster should return.

So, while Peter Rabbit was running, lippy-lippy-lip, in one direction as fast as ever he could, Bobby Coon was running in the opposite direction and his black feet were moving astonishingly fast. He didn't know where he was going, but he was on his way somewhere, anywhere, to get out of the neighborhood of Buster Bear. So Bobby took the lead of a happy little going, but ran until he was too tired to run any more. His heart was beating—thump-thump-thump—thump-thump-thump, and he was breathing so hard that every breath was a gasp and hurt. He just had to stop. He couldn't run another step.

As he puffed and puffed, trying to get air enough into his poor lungs, he listened for sound of Buster Bear. Bobby's ears were very keen, but keen as they are they cannot hear what doesn't exist, and so they told Bobby nothing whatever of pursuit by Buster Bear. Of course not. You remember Buster didn't even try to follow Bobby. He didn't even know in which direction Bobby had gone. So though he listened and listened Bobby didn't hear so much as the rustle of a leaf. It was very, very quiet there in the Green Forest.

After a while Bobby's heart stopped going thump-thump-thump, and he once more breathed easily. He knew that he had escaped, and that sign was a happy little sigh. Then he grinned. He was thinking of how hard he had tried to get a chance to sleep that day and how every time he thought of it he had found a bed he had been turned out of it almost as soon as he had closed his eyes. Bobby has a funny side of all his experiences. "There is one thing sure, and that is being without a home is a more serious matter than I thought it was," said he. "I thought it was easy enough to find a place to sleep when I wanted to, but I've begun to think that it is about the hardest thing to do I've ever tried. Here I am in a strange part of the Green Forest and homeless. There's no use in going back where I used to live, so I may as well look around here and see what I can find. Perhaps there is an empty house somewhere. Most anything will do for awhile."

So Bobby began to look about for an empty house. Now, of course, he had in mind a hollow log, but he always had lived in a hollow tree and so he preferred one now. But he soon found that hollow trees were few and far between in that part of the Green Forest, and that he did find didn't have hollows big enough for him. The same thing was true of hollow logs. He was getting discouraged when he came to a ledge of rock which was the foundation of a little hill deep in the Green Forest.

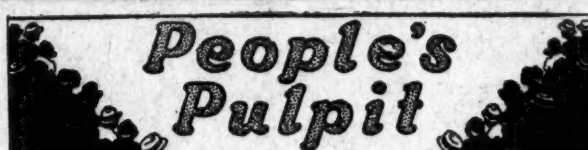

In this ledge of rock Bobby discovered a crack big enough for him to squeeze into. Just out of curiosity he did squeeze into it, and then he discovered that after a little it grew wider and formed the snugger little cave he ever had seen. It was very dry and comfortable in there. All in a flash it came to Bobby that all that was needed to make this the snuggest kind of a house was a bed of dry leaves, and these were easy to get. Bobby's eyes danced.

"I've found my new home," he declared out loud. "It can't be cut down as my old home was. Buster Bear can't tear it open with his great claws. No one bigger than I can get into it. It's the safest and best house in all the Green Forest, and I'm going to stay right here."

And right then and there Bobby Coon curled up for that sleep he so much needed.

People's Pulpit

By Norman Baker's column of Friday's Free Press that he said something concerning the different farm organizations. Why doesn't Mr. Baker help the farmers by exposing to the public the difference between the organizations. So many farmers have not the remotest idea of the origin of these organizations. The time has come when the farmer should realize the need of cooperation so that the one who comes first with fine promises of farm relief, etc., need not necessarily win him. It is said that some of these organizations were born and bred in Wall Street. Why not join the ones whose members are all honest-to-goodness farmers. Why, indeed, as Mr. Baker says, do business men and doctors belong to some of them. Think it over; get the correct information.

Let's open our eyes to the facts and endeavor to change some of these unjust laws. When we farmers wake up to the fact that we should have just one organization owned and controlled entirely by farmers, there will be hopes of real farm relief and of once more becoming the happy, independent farmers we once were.

A Mero Farmer, Hillsboro, Ia.

People's Pulpit:—About two years ago I began to have some rectal trouble which

Manhattan Days and Nights

By Walter Trumbull

There is a certain period for which those in the chorus of a musical show receive no salary. In a certain show some of the chorus men always tried to get away from rehearsal by ten o'clock at night. This finally aroused the curiosity of an artist who was designing the sets. On investigation, he found that eight of the chorus men wanted to get away at that hour because they were then able to make two of the city bread lines.

"Oh, no," the man replied. "We don't mind doing anything to get fed, only there is one place where they give you tuna fish. We are awfully tired of tuna fish."

A New York couple were very anxious to be married without publicity because of the prominence of one of them who had been divorced. They consulted a lawyer, who said that by expending a certain sum of money he could fix it so that the marriage would not become known until they were ready to announce it. He arranged for them to go to a little town in a neighboring state, told them just how to get the license, and had a justice of the peace waiting to perform the ceremony. Everything ap-

ABE MARTIN

"I never bother myself about the color of my skin," said a girl who had been missing since the Fourth of July has been found in the Carpathian Mountains alive and doing fine," says Mrs. Triford Moya. I can remember when all the brilliant colors that are so popular today were only used on croquet balls.

developed into hemorrhoids, and which has made me miserable all during the past two years. My trouble never became so severe that I was forced to quit my work, but it was a great inconvenience and bother, and I didn't go any place to have it treated because I didn't believe in operations in such cases, which are nearly always recommended. In fact I knew a party who had an operation for this ailment, who was laid up for over a month, and I didn't care to have this experience, especially as an operation was no guarantee that the hemorrhoids would be cured.

My wife came to the Baker hospital and got such wonderful relief. (she is just fine today, and has been at home for quite some time) that I decided I was foolish not to take advantage of the relief they could give me. I took only about four or five treatments, which have completely relieved me of my ailment, and I certainly advise that anyone suffering from hemorrhoids (or any other ailment) come at once to the Baker hospital. The hemorrhoid treatment is so very simply and easy to take and it means such a wonderful relief to the sufferer that he cannot afford to ignore it.

One Who Knows, Buffalo, Ia.

More Truth Than Poetry

By James J. Montague

A SONG OF CHEER

(It is predicted that short radio waves, now prevalent in the ether, will prove highly stimulating.) Shake off your despondence, don't sigh and grow glum. Smooth the scowl from your furrowed forehead. Although half of your friends seem uncommonly dumb, and the other half ugly and horrid.

Don't think, with a sigh, of the money you owe. Or the money that long has been due you. Get out in the air and parade to and fro.

Where the happiness waves can pass through you. And when you've been shot with a few thousand volts.

You'll forget all about all the wallops and jolts. If the stock market's off, or you're out of a job.

If your hopes have been burst like a bubble. Don't sit in the gloom of your bed-room and sob.

Or think about worry and trouble. If your boss, every Saturday, makes the remark: "That he ought, in all conscience, to fire you."

Go out in the evening and sit in the park. Where the happiness waves can inspire you. And there, where the shadows are cooling and dim. You will think about buying his business from him.

STRANGE AS IT SEEMS—

by John Hix

TALKING PICTURES WERE SHOWN IN NEW YORK CITY 30 YEARS AGO

CONTRIBUTED BY ALFRED GROEN

A small girl was talking to her mother concerning an uncle, whose wife had died and who had married again. She couldn't quite understand how she came to have a new aunt. Her mother tried to explain matters to her.

"If you died," said the little girl, "would father marry again?" A bit upset, the mother said that was a question she couldn't answer; that the child would have to ask her father.

Learn to Know the Right Word

By W. C. Nicholson

NAME OMITTED

The author of the following letter desired that his name be not published.

"In your article in today's paper, as in past articles, you condemn the use of 'will' in the following sentence:

"I will be much obliged, etc." "Will" expresses, in the first person, assurance or promise as well as determination. Hence it seems that it is correct for one to assure or promise appreciation of a requested favor when the promise is dependent on the conditions of the 'if' clause.

The foregoing letter came from Clemson College, S. C. It is true that "I will" or "we will" expresses either determination or a promise. Let us interpret the expression as a promise.

The thought "The Right Word" has so often tried to convey is that one does not promise the state he will be in after this or that event. What does he do when? He merely predicts how he will feel. This is true of such locutions as "I should like," "I should appreciate," "I should think," "I should be able."

The same line of reasoning applies to the expression "I shall be much obliged."

If the author of the foregoing letter is still not satisfied, "The Right Word" would be glad to hear from him or her again.

Never say, "I would fail." Correct: I should fail. Do you know why, now?

Local Women To Attend Y.W.C.A. Meet In Chicago

Mrs. Carl Spiehl and Mrs. L. C. Day, members of the local Y. W. C. A. board, will attend the Central Regional Conference of the Young Women's association to be held at the Hotel Sherman in Chicago, April 28-30.

Fifteen national secretaries will be present at the sessions. They will represent departments such as: publicity, foreign, religious, town associations, industrial and business girls, Girl Reserves and educational.

Miss Lucy Milligan, Muscatine Y. W. C. A. secretary has the following to say about the conference: "Religious thinking and its bearing upon the problems of volunteer leadership for organization, public affairs and international relationships will be among the topics under discussion. Two hundred women active in Y. W. C. A. work in the Central States are expected to meet to discuss these and kindred topics, and the Y. W. C. A. is a part in community problems, such as unemployment and the use of community opinion against the 'All too possible' next war." The conference is one of a series under the National Regional Conference committee of which Mrs. Harriet Chamberlain of Toledo is chairman. Mrs. Chas. Gilly, president of the National Y. W. C. A. will be in attendance, and Mrs. John H. Finley of New York, member of the National Board is among the New York women expected. Also Miss Anna Rice, National Secretary of the Board, who will have charge of the United Worship. Miss Jane Adams will be one of the main speakers.

Mrs. Stanley Jones Is Guild Hostess

Mrs. Stanley P. Jones entertaining members of the East Hill division of the All Saints Guild of the Trinity Episcopal church at her home, 1214 Murray avenue, Wednesday night. The ten participants spent the time carding buttons and refreshments were served later in the evening.

Miss Irene Carl will be hostess to the group Wednesday, May 6, at her home, 1237 Smalley avenue.

Grace Lutheran Women Meet

The Ladies' Aid society of Grace Lutheran church met Thursday afternoon in the church parlors. Mrs. Werner Wittich and Mrs. Tony Schumacher were hostesses.

Wednesday, April 22, the aid will meet in all day session at the church. A. B. M. M. will be served at noon and all planning to attend are requested to notify Mrs. Ed Horst not later than Monday night.

Well Known Couple Is Married

Announcement is made of the marriage of Miss Edna Mae Workman, daughter of Mr. and Mrs. George Workman of Riverside, and Donald Frank, son of Mr. and Mrs. John Frank of Lone Tree. Mr. and Mrs. Frank were married recently in Washington and details of the wedding have not been learned as yet.

Degree Staff to Have Practice

Miriam Rebekah lodge will meet in regular session at 10 o'clock, Friday night at 8 o'clock. After the business meeting degree staff practice will be conducted and all members of the staff are urged to be present.

Auxiliary to Sponsor Sale

With the annual buddy poppy season approaching memory of the origin and reason for wearing these poppies is brought to light again. The annual sale, which the American Legion and Ladies Auxiliary will sponsor here, will commence May 23 and last for six days.

The Ladies Auxiliary announces the following notes: "As the annual day for the wearing of the poppy draws near, it is well to bring to our minds the significance of this little flower. Why do we have a poppy day? "We wear this poppy once a year to express the feeling of remembrance that is always in our hearts for men who died on the poppy-studded fields of France and Belgium during the World War. "The poppy is their flower. It grew on the battlefields where they fought and died, it grew over their fresh graves, the one touch of beauty and life in all that region of destruction and death known as the front. "Nothing can symbolize our remembrance of the sacrifices of the World War dead in so fitting a way as the wearing of the poppy."

Rainbow Girls Have Ceremony

Initiation services were conducted at the Masonic temple Wednesday for six candidates in the Rainbow Order for Girls. There were 65 Masons, White Shrine members, Eastern Stars and friends who witnessed the ceremony.

Miss Myrtle Baker, past worthy high priestess of the Shrine gave a talk to the girls congratulating them on their initiation. J. A. Chamberlain also spoke to the group. The Misses Loraine Ward and Virginia Brown sang a duet, accompanied by Miss Jean Moore. Miss Loraine Fisher, worthy advisor announced that election of officers for the order would be held May 2.

of destruction and death known as the front. "Nothing can symbolize our remembrance of the sacrifices of the World War dead in so fitting a way as the wearing of the poppy."

MENU FOR FRIDAY

- BREAKFAST:** Stewed Prunes, whole wheat cooked cereal with cream, shredded eggs, oatmeal muffins, coffee.
- LUNCHEON:** Baked spaghetti, tomato sauce, bread and butter sandwiches, Washington pie, tea.
- DINNER:** Tomato soup, baked fish, Hollandaise sauce, scalloped potatoes, green peas, lettuce and cucumber salad, mayonnaise dressing, rhubarb shortcake, coffee.
- Five-Minute Cabbage**
 - One and one-half quarts shredded cabbage
 - Three cups milk
 - One cup cream or rich milk
 - Two and one-half tbsp. butter
 - Two and one-half tablespoons flour
 - Salt
 - Pepper
- Cook** the cabbage for two minutes in the three cups of hot milk. Add the cup of cream or rich milk and the seasoning and cook rapidly for three or four minutes. The result is a crisp vegetable delicate in flavor and color.
- Corn Fudding**
 - Two cups fresh or canned corn
 - Two tablespoons melted butter
 - One and fourth tsp. salt
 - Three eggs
 - Two cups milk
- Beat the eggs and mix all the ingredients. Pour into a buttered set.
- Orange Drop Cookies**
 - Two cups flour
 - One cup sugar
 - Four tablespoons butter
 - One-half teaspoon salt
 - Four tablespoons orange juice
 - Two eggs
 - Four teaspoons baking powder
 - Two tsp. grated orange rind
- Cream together the grated rind of the orange and the butter. Gradually beat in the sugar the beaten eggs and the orange juice. Add the flour and baking powder which have been mixed together. Drop the batter by teaspoonful onto a greased baking sheet or an inverted pan and bake in a quick oven.
- Macaroons**
 - Two egg whites.
 - One cup sugar.
 - Two cups of a flaked toasted breakfast food.
 - One eighth teaspoon salt.
 - One cup shredded coconut.
 - Almond flavoring.
- Beat the egg whites with the salt until stiff. Add the sugar and beat thoroughly. Fold in the coconut and toasted flakes which have been crushed in the hands. Add the flavoring. Place by teaspoonful on oiled paper and bake in a moderate oven for about twenty minutes or until delicately browned and well set.

Weekly Bridge Party Enjoyed At Golf Club

Bridge was played at five tables at the Geneva Golf and Country club Wednesday evening when members of the club met for their weekly party. Hosts for the affair were Mr. and Mrs. Theodore McKee. High score awards were won by Mrs. Frank Warfield and V. H. Lee.

At the conclusion of the game a supper was served at a table with appointments for the 20 guests. Spring flowers and vari-colored tapers were used effectively.

Mr. and Mrs. Albert McKee will act as hosts at the club party, April 29. Definite arrangements will be announced later.

Pupils Presented in Recital

Senior music pupils of St. Mathias high school presented a recital in the school hall Wednesday night at 8 o'clock. The following program was enjoyed:

"Danse Rustique" (Russell)—St. Mathias school band.
 "Valse Arabesque" (Hendricks)—Helen Korte.
 "The Woodpecker" (Manley)—Mary O'Brien.
 "La Baladine" (Lysberg)—Elizabeth Stapleton.
 "Valse Brillante" (Silver)—Marion Bennett and Helen Korte.
 "I Would Weave a Song for You" (O'Hara)—"Japanese Maiden" (Waggoner)—Margaret Chaudoin.
 "A Dollar Down and a Dollar a Week" "A Reassurance"—Rose Claire Klaffenbach.
 "The Rosary" (Nevin): "London-derry Air" (Arr. by J. E. Maddy)—St. Mathias school band.
 "Little Lost Youth of Me" (Bond): "Far From My Heavenly Home"—(Neldinger)—Irene Connell.
 "Home to Our Mountains" (Verdini): "Smilin' Through" (Penn)—Mrs. C. C. Fifer and Genevieve Plessy.
 "Concert Mazurka" (Wilson)—Margaret Chaudoin.
 "Juba Dance" (Dett)—Margaret Wessels, Margaret Chaudoin, Loretto Cottrell and Elizabeth Stapleton.
 "Goin' Home" (Dvorak): "Mighty Lak a Rose" (Nevin)—St. Mathias Merry Makers.
 "Polonaise Militaire" (Chopin)—Loretto Cottrell.
 "Silver Ring" (Chaminade): "Break of Day" (Sanderson)—Genevieve Plessy.
 "Marche Orchestrale" (Cope)—Margaret Chaudoin and Loretto Cottrell.
 "Were You There?" (Burleigh)—Voice students.
 "The Nightingale" (Liszt)—Margaret Wessels.
 "Little Boy Love" (Sanderson): "Grandmas" (Sachs)—Mrs. C. C. Fifer.
 "My Creed"—Elizabeth Garrett, glee club.
 "March Finale" (Bathhouse)—St. Mathias school band.

Party Held for Mr. and Mrs. Schmitt

Mr. and Mrs. Vernon Schmitt, who were recently married, were the honored guests at a party given by Mr. and Mrs. J. S. Martin at their home in Letts, Tuesday evening. The hours were spent informally and a supper was served.

Those who shared the pleasures of the courtesy were: Mr. and Mrs. Clyde Martin and daughter Anna Mae, Mr. and Mrs. P. W. Martin and daughter Carol, Mr. and Mrs. Ben Martin and daughter Helen, all of Sweetland; Mrs. Henry Paul, Layle and Ina Fae Paul, of Pleasant Prairie; Raymond and Delmar Carter, Gladys Schmitt, Elizabeth Brown, Olive Martin and Melvin Cooper of Muscatine.

Pocahontas Lodge Sponsored Party

Members of Pocahontas lodge sponsored a card party at the Redman hall Wednesday night. Mrs. Theresa Pfeiffer was hostess for the evening and first prizes were awarded to Mrs. W. Christensen and T. S. Ryan. Mrs. Pearl Crow and Everett Crow won second prizes. The lodge will give a similar affair Wednesday night, April 29.

Rhoda Bible Class Will Convene

The Rhoda Bible class of the Protestant Evangelical church will meet tonight at the home of Mrs. Mary Wollett, 511 East Eleventh street. Miss Sophia Schafer will be assisting hostess.

Two Parties Are Planned

A pinhole and five hundred card party will be held Friday evening at Thome's hall in Sunburg, Ia. On May 2 a May dance will be given at the hall.

Surprise Party Is Held at Schmidt's

WILLIAMSBURG, Ia.—(Special)—Approximately 50 relatives and friends held a surprise party for Mr. and Mrs. George Schmidt, Sr. in their home here Tuesday evening. The occasion marked the golden wedding anniversary of Mr. and Mrs. Schmidt.

Bride

Miss Valerie French, grand-daughter of the late Field Marshall Sir John French, was married this week to Lord Brougham and Vaux, fourth baron of his title. They are both 21 years old. Lord Brougham and Vaux inherited a fortune estimated at one million dollars last year. Miss French visited the United States in the summer of 1929 when her then fiancé, Henry Bradley Martin, was injured in an automobile accident in Colorado. Their engagement later was canceled.

Bolero Bounces Back Into Style

By ALICE LANGELIER PARIS—(INS)—The bolero has bounced back into fashion and is bobbing up in all chic places in Paris these first days of spring.

It gives any gown the very necessary little touch which transforms it immediately into appropriate wear for the street. It also lengthens the line by imperceptibly raising the waistline and is generally becoming to all women.

Mrs. Edward C. Acheson, Jr., one of the prettiest members of the American Colony in Paris, is wearing Worth's dark blue wool georgette costume with a little bolero that has short sleeves. There is a tulle skirt and dark blue foulard blouse which is patterned with tiny white flowers and has as trimming a white belt and large white bow on the front of the blouse.

The bolero is particularly popular on the stage at the present moment. Blanche Montel, favorite French actress, wearing three bolero-ropes in her latest hit at the Theater Athenes, "Pierre ou Jack?" One comes in brick-red wool with white satin blouse having a jabot-white front.

Dupuy-Magnin is making a charming little bolero in brick-red rosette with collar and cuffs of beige crepe de chine. Helene Yrlande uses the classic black and white combination in crepe birman. Practical, as well as beautiful, are little bolero that transform the dinner-gown into one for the bridge-tee and the evening-gown into one for dinner. They come in lace, beaded chiffon, in one of the bright laces or even in the same material as the frock itself.

Loyal Women's Class Meets

When the Loyal Women's class of the First Christian church met Tuesday evening at the home of Mrs. Tom Foglesong 1115 Sycamore street, election of officers was held as follows: president, Miss Ida Koehler; secretary, Mrs. Jean Floyd; treasurer, Mrs. Ephraim Broadston; teacher, Mrs. E. Pierson and assistant teacher, Mrs. J. W. Hillier.

The class will convene again May 19. The event will be a picnic and the men's class will be invited to participate.

Smart Details Give Gown Air Of Chic Style

By ALICE LANGELIER PARIS—(INS)—To prove once more that it is really the smallest things that count, French dress-makers are putting most important emphasis on dress details. They form the little surprises that catch the eye and give the frock that indelibly French cachet which stamps it definitely 1931, as well as rue de la Paix.

Decorative details come by way of ornamental stitching which joins seams. Rows of tiny flounces form a wide bell-cuff from the elbow down and a vest is made in the same manner on a dark frock. Cording is used on otherwise plain crepe frocks to form a pretty pattern.

Belts are more important than ever, with patent leather a favorite and the smartest of them wide and crushed at the back.

Little "modesty fences" edge décolletés, lace thrills, ruchings and pleating.

An interesting green mousseline evening gown reveals the lines of its design in inch-wide bands of hand shirring. A caped peau de soie in rich black has its square volants shirred on several different lines to the skirt cut on a widening line as it falls from a sashed bodice. An evening cape is bordered with a broad puff and quiltings and ties on one shoulder and a scarlet bridge frock of ankle length is slashed in long square panels to fall over a narrower skirt of the same fabric.

Dainty lace-edged petticoats are peeping out of split skirts and there are overskirts covering the skirts which open sometimes in the back and sometimes in centerfront.

Bridge-Auction and Contract

By the Authority MILTON C. WORE

A TIGHT SQUEEZE

With the above hand at Auction South would secure an uncontested contract of one No Trump. At Contract South bid four No Trumps. His usually high count of 27 was the exact requirement for this bid. North, with a count of 8, bid six No Trumps.

West led the Five of Clubs. South, false-carding with the Ace, on East's Jack and paused to look the situation over. He could count eleven sure tricks, with an extra trick in Hearts and another in Diamonds if the adverse cards were evenly divided. He immediately unblocked the Spade suit by playing his Ace and King. He won two rounds of Hearts in his own hand, and a third with dummy's Queen. When West's Spade discard on the third round disclosed the uneven Hearts break, dummy's Queen of Spades was played. South and West each discarded a Club. Declarer then tacked the Diamonds. On the third round, won by South's Queen, East discarded. Declarer next played his King of Clubs and surrendered. West won the last two tricks, setting the contract one trick. Could South have overcome the unfortunate distribution he found against him in his three seven-card suits?

The Correct Play South played this hand perfectly, till the eleventh trick. At that stage he should have taken "time out"—and done a bit of counting. We had discarded a Spade on the third round of Hearts, and a Club on the third round of Spades.

West's three remaining cards therefore are in the minor suits. West's original Club lead was from a four-card suit and one Club has been discarded. West holds two Clubs, one of which must be the Queen, or he would have led originally his four-card Diamond suit headed by the Jack. (Elo's discard on the third round of Diamonds marks West with this original holding.) West's three cards therefore are the Queen of Clubs, a small Club, and the Jack of Diamonds. By leading a Diamond and putting West in the lead, Declarer forces West to lead a Club up to Declarer's King-Ten. South thus wins the last two tricks, and a small slam.

(Copyright, 1931)

The Evening Story

NAMES MAKE THE MAN

By Jennie Broody

"I would never," asserted Lenilla, emphasizing the "never," marry a man who could no give me a more stand-up-to-world name than my own. Just imagine handicapping a child with the name of Lenilla Lena Lager-smatch!"

"Oh, it's not as bad as all that," consoled Mary Davies, who rather enjoyed watching Lenilla's face screwed up into a frown.

"Not as bad! Lenilla, indeed! Why, in grammar school they called me Vanilla Extract and in high school it was Lean Legs and now—well, now I sign myself Miss Lager-smatch, and even then with a fear of being laughed at."

"Well, never mind—some day Percival or Marmaduke will come along and you'll fall for his charms."

Lenilla only sniffed at this, and the girls rose to go from the tea-room where they had been lunching.

"Don't forget—tomorrow at eight sharp," was Mary's parting message.

As she dressed the next evening Lenilla felt a thrill of anticipation. After all, meeting a new man was something in one's every-day-world to be looked forward to. Which should it be—the blue chiffon or the yellow crepe? She decided on the blue chiffon.

As she went up the steps of the Davis house she saw the new man sitting on the swing, holding an animated conversation with Mary. He was good looking, she admitted that much. And his name—that was the important thing—or what he, present John, we won't be formal so just call him John, and I know he won't object," Mary was saying.

"Lenilla," he was saying, with just the faintest smile about his lips, the smile that Lenilla was beginning to detest seeing, when she was introduced to any one.

The evening passed pleasantly enough, and John escorted Lenilla down the quiet, dark streets to her home.

"I'm a copy writer. I write about perfumes, clothes and all those things that manufacturers want women to buy."

"Do you like those Delight perfume ads?" asked Lenilla. "The ones that go something like this: Starlight of dawn and goldstuffs of dew, with the green of the grass blended into the aroma?"

John laughed. "Well, I did those and I think they're pretty good, if I do say so myself."

"You did them? They're beautiful!"

"You use that perfume, I notice. And I think that blue is just the color for those eyes, and that Lenilla fits you perfectly."

Lenilla's heart sank. He didn't know her last name and he was a writer. Lager-smatch would spoil it all—run the spell of the night—run that interesting look in his eyes.

"Oh, Lenilla," she said faintly.

YANKS TAKE LEAD IN PENNANT RACE BUT LOSE RUTH

THIGH INJURY MAY KEEP BABE OUT FOR WEEKS

Gehrig Also Suffers From Bad Leg and May Need Rest

By COPELAND C. BURG

NEW YORK.—(INS)—The New York Yankees today went into the lead in the American league pennant race but the 7 to 5 victory over the Boston Red Sox that put them on top cost the loss of Babe Ruth. Collapsing from a thigh injury, the famous home run hitter and the biggest drawing card in the history of baseball may be out for several weeks.

Further tragedy stalked the victory hopes of the New Yorkers. It was learned this morning, Lou Gehrig, another Yankee star, is also suffering from a bad leg and may join Ruth in the hospital list, although he hoped to continue in the lineup, as he is nearing a record for continuous play.

Ruth's collapse climaxed a day of hard luck. First he stepped into a depression in the ground and twisted his left instep. Then he crashed into Charlie Berry, Sox catcher, as he dashed for a score. Berry is a former Lafayette football star and some reports said he "shouldered" Ruth as the home run king scored. Ruth's thigh was badly bruised and word here was that if a blood clot developed he might be idle for many days.

Reports to the Yankees clubhouse today indicated that the exact extent of Babe's injuries will not be known until further examination but he was not believed seriously hurt and may be back in play in two weeks or less. Should he remain out of the game for a month, not only would the Yankees be crippled but the loss in dollars to the New York club and to the Yankees' opponents would be huge. About half of the great throngs who came to see the Yanks play all around the circuit are drawn by Ruth's big club.

Critics Homer Wins
A homer by the rejuvenated Frankie Frisbie started the Giants on a late rally and they won before 45,000 fans, 5 to 4, over the Phils.

Hadley did weak mound work for the senators and the athletics won from Washington 5 to 1. Cronin homered to rob Grove of a shutout. The Cardinals continued supreme, defeating the Cincy Reds 3 to 2, with Johnson striking out six Cincinnati batters.

Caraway restricted Cleveland to eight hits and Richard Sox outfielder, got four hits and a sacrifice to win for Chicago, 10 to 2. More than 20,000 fans, statesmen, dignitaries and bands flocked to the Brooklyn Robins and they fell again. This time the Boston Braves beat them, 4 to 0. Zachary giving Brooklyn only four hits and the Robins matched these with four expensive errors.

Rain held off the Chicago-Pittsburgh and Detroit-St. Louis games.

Bobby B. Norris Is Youngest Writer of Sports in America
Bobby B. Norris is a darned good sports editor who's only 15 years old. It is believed that Bobby is the youngest bona fide sports writer in the United States if not the entire world. His home is in Jeffersonville, Ga., and he has been employed on the Macon Evening News.

Strange as it seems, Bobby has been writing sports since he was nine years old. He knows every player in the big leagues by his first name, can tell you the last year's batting average of any player without consulting the records. He also knows where most big leaguers played before they entered the big show.

Norris was a sort of private statistician for the Sally League until that loop broke up last. He knew all the players' batting and fielding averages and can tell you which team won the pennant every year since the league was organized.

With the fund of sports knowledge he now possesses and four years in college to polish off the rough spots, Bobby should rise to great heights in the sports world.

Babe Ruth Suffers From a Blood Clot Injury Like Knute

NEW YORK.—(INS)—Babe Ruth is suffering from the same injury which bothered Knute Rockne, famous football coach, for many months before his death in an airplane crash recently. Dr. E. V. Painter, New York Yankees' trainer, said today.

Talking over the telephone from Boston, where Ruth injured his thigh yesterday in a game with the Red Sox, Painter said the great hitter was struck on the major thigh muscle on the left leg, half way between the hip and knee. A similar injury developed into a blood clot for the Notre Dame coach and he was troubled for a long time.

"It is difficult to fortell the effect of such an injury," Dr. Painter said. "Sometimes it is merely a muscle bruise, which we hope this is."

BERG FAVORED TO WIN TITLE

British Contender Is Figured to Defeat Tony Canzonieri

By CLAIR KELLY

CHICAGO.—(INS)—Jackie ("Kid") Berg, England's foremost flistic ambassador, is still quoted 7 to 5 favorite today to unseat the light heavyweight champion, Tony Canzonieri, tomorrow night when the latter risks his six-month old title against the white-chapel challenger in ten rounds at the Chicago stadium.

Canzonieri is not without strong support among many shrewd boxing followers in the Chicago loop but Berg's apparent ease in making the lightweight limit has led to a firm stand in the betting quotations according to reports today. The two principals in this first international lightweight championship fight since Benny Leonard dethroned Freddie Welch were letting down in training today. They sparred last night, and it was announced from the Berg quarters that Jackie had scaled less than 135 pounds after the workout.

Sale Just Fair
Unless there is an unprecedented rush to the box office of the stadium before Friday night, it is likely that the Berg-Canzonieri gate will not exceed \$60,000, according to reports.

Up to today, approximately \$30,000 has been paid for tickets, no more than an additional \$30,000 is expected to go into the stadium coffers before the fight. The stadium management, believing the match would be a "super" attraction, boosted prices to range from \$2.20 to \$10.80, meaning that a sellout would represent a gross gate of \$136,000.

The fans have not yet shown any conviction that the fight is worth the price.

Exciting Go Expected
Veteran ringers expect to see the most exciting lightweight battle since the Leonard era, which produced those thrillers with Rich Mitchell, Charley White and Lew Fender. It can be nothing else but a battle of stamina when Berg is present, and the contending pair are two of the gamest warriors in the beat-busting profession.

The super-charged Berg has worn down most of the American contenders and has scored twenty-four victories without a break in the past two years. Some believe that Billy Petrolle took something out of the non-stop Briton in their terrific fight last night when over the Fargo challenger but it was probably the hardest fight of his career.

Tony Loses Speed
Canzonieri has been hot and cold, so to speak, in his gymnasium performances here. Reports from his recent eastern encounters have had it that Tony has lost the speed that carried him along a featherweight and has the presence of mind.

The champion has thrown the doubting ones off, however, with his crisp punching in workouts here. He has been ringing the bell with his right hand, and it is no secret in his entourage that he believes he can stop the wide-open Briton.

The bout holds an unique feature for the history books in the fact that it also involves Berg's junior welterweight title. It is the first time that both opponents have had a chance to win two titles in one encounter.

UNPAID COACH
This is the eleventh season Dr. Walter L. Carls has coached the University of Pennsylvania baseball team without pay.

DRAKE RELAYS WILL OPEN AT 2 P. M. FRIDAY

Full Day's Schedule Of Events Carded For Beginning

DES MOINES, Ia.—(INS)—A full day's schedule of events, including a large number of final races, is on the program for the beginning of the twenty-second annual Drake relays Friday.

The relays will officially open at 2 p. m., but preliminary heats in three Class B events will be run at the Stadium Friday morning, beginning at 10 o'clock. Three university and college finals, four university and college relay preliminaries, and preliminary events in all individual track and field events are scheduled for Friday afternoon. More than three hours will be consumed in running off this program.

To Defend Record
The major university event will be the distance medley race, always a bitterly fought race. Marquette, which made a new Drake relay record last year in this event, will be back to try to annex the race again this year with virtually the same four who covered the distance in 10 minutes 23.7 seconds.

Iowa college fans will see members of the Iowa Intercollegiate Athletic conference in the high hurdles and the one-mile relays for two schools. Each will be run off in two sections.

Preliminaries in all the individual events will bring out some thrilling sights, especially in the high hurdles and the 100-yard dash.

Iowa high school in the Class B division will participate in the finals of the 440-yard, 880-yard, one-mile and two-mile relays Friday afternoon. Des Moines high schools will have special 880-yard and one-mile relays and a specially individual 100-yard dash, while a 440-yard relay for Des Moines junior high schools and the annual grade school shuttle race are also on the program.

The complete program for Friday is as follows:
Friday Morning
9:30—Drawings at the stadium for high school Class B preliminaries in 440-yard, 880-yard and one-mile relays.
10:00—440-yard relay high school Class B, preliminaries.
10:30—880-yard relay high school Class B, preliminaries.
11:00—One-mile relay high school Class B, preliminaries.
11:30—Drawings at the stadium for high school Class B, finals in the 440-yard, 880-yard and one-mile relays.

Friday Afternoon
2:00—120-yard high hurdles, university and college preliminaries.
2:15—440-yard relay, Des Moines Junior high schools.
2:30—100-yard dash, university and college preliminaries.
2:35—One-mile relay, college, preliminaries.
3:05—880-yard relay, high school Class B, finals.
3:15—880-yard relay, Iowa Intercollegiate association, first section.
3:20—880-yard relay, Iowa Intercollegiate association; second section.

2:35—Two-mile relay, high school Class B, finals.
3:40—100-yard dash, Des Moines schools, finals.
3:45—440-yard relay, university, preliminaries.
4:00—440-yard relay, Class B high school, finals.
4:10—Shuttle relay, Des Moines grade schools, finals.
4:15—One-mile relay, Iowa Intercollegiate association, first section.
4:20—One-mile relay, Iowa Intercollegiate association, second section.

4:25—Distance medley relay, university (440-880-1320-one mile).
4:40—880-yard relay, Des Moines high schools, finals.
4:45—One-mile relay, high school Class B, finals.
4:50—880-yard relay, college, preliminaries.
5:00—880-yard relay, university, preliminaries.
5:10—Pole vault, broad jump, discus throw, preliminaries.
5:15—High jump, shot put, javelin throw, preliminaries.

Ringside Seats at Cleveland Titular Match to Cost \$25
NEW YORK.—(INS)—Ringside seats at the Schmeling-Stribling bout in Cleveland in July will cost \$25.00, Dick Dunn, "Iron" man for the promoters said today. The lowest price seats will be \$5.49 and another section will sell for \$12.50.

Wesleyan University has started work on the new alumni athletic building which will have a dirt floor.

"JOE JINKS"
THAT TELEGRAM FROM BUSTUM HAS KNOCKED JOE BACK ON HIS HEELS FOR A MOMENT—HE THOUGHT HE WAS GOING TO HAVE PLENTY OF TROUBLE TO GET A FIGHT WITH OLE

WHAT'D YOU MAKE OUT OF THIS WIRE DYNAMITE? HE SAYS IF YOU'RE IN LOS ANGELES WHEN HE GETS HERE HE'LL KNOCK YOUR BLOCK OFF! WHAT'D YOU THINK HE MEANS?

I GUESS HE MEANS JUST THAT! HE'S PROBABLY MAD BECAUSE WE FLEW HERE AHEAD OF HIM AND HE WANTS TO FIGHT ME I HOPE!

WELL—HIS TRAIN GETS IN TOMORROW AND WE'LL SEE IF HE MEANS "HELL, FIGHT US!"

C'MON JOE—TAKE ME TO SEE SOME MOVIE QUEENS WILL YA?

SAY! IF YOU TOOK THAT HOMELY PAN TO HOLLYWOOD THEY'D CAST YOU AS A GORILLA—GO ON OVER THERE IF YOU WANT TO BUT YOU GO ALONE!!!

I'M GOIN'!

ANOTHER YANK DANGER LOOMS

Slight Wrench Might Make Gehrig Rest Up With Ruth

By FRANK (BUCK) O'NEILL

BOSTON.—(INS)—With Babe Ruth in the hospital nursing a severe bruise on his left thigh that probably will keep him out of action for a week or longer, a fresh peril loomed for the Yankees this morning.

Lou Gehrig's leg buckled under him yesterday, and although he continued to play, and will start today, he is in momentary danger of springing a Charleyhorse that may incapacitate him indefinitely.

Gehrig completed his 894th consecutive game with the Yankees yesterday, and is eager to run the string to 1,000 or more. Whether or not he will succeed is purely a matter of luck. A wrench, however slight, may send Lou to the sick bay.

Babe's Thigh X-Rayed
An X-ray photograph disclosed no injury to Ruth's thigh bone. There is danger of a deep-seated blood clot forming, however, and should this develop, Babe will be out of action for a long time.

In the event that the physicians at the Peer Bent Brigham hospital can prevent the threatening clot from forming, and they worked over Ruth for hours, the home-running king will be discharged from the hospital today. He spent a comfortable night.

After Ruth is released from the hospital it was expected that he would be sent home to New York.

Hoag and Byrd Sub
During his absence, Myrl Hoag, \$75,000 star from the Pacific coast who relieved Ruth yesterday and Sammy Byrd will alternate in left field for the Yanks.

Physicians at the hospital said today that the numbness in the leg which caused Ruth to fear that his leg was broken was caused by shock to the nerves. Shortly after being admitted to the hospital, however, he regained motion in his ankle joint and feet. The Babe reassured himself this morning that everything was all right by giving exhibitions of toe wriggling.

MOUNT BOLTS, KILLS JOCKEY
SAN FRANCISCO.—(INS)—Thrown from his mount in the eighth race at Tanforan Jockey Felix Roberts, 17, of Winnipic, Cal., was dead here today. The jockey's neck was broken when he went hurtling through the air and crashed into a wheel of the race track water wagon.

Roberts, riding his sixth race, had the leg up on Laumaia, owned by the Parker ranch. He was under contract to Tom Hunt, Canadian turfman.

Laumaia was leading the field in the back stretch when he suddenly bolted and crashed into a fence and sent his rider flying through the air.

Penn State golfers will meet Army, Lafayette, Colgate and Swarthmore and participate in the intercollegiate.

SWAPPED STARS FAIL TO SHOW CLASS TO DATE

Only Few of 30 Some Players Showing Improved Form

By LES CONKLIN

NEW YORK.—Trade may be a great boon to the welfare of nations, but the season's baseball records to date fail to show that major league managers did themselves any good by swapping players since last season.

Of the thirty odd big leaguers who are wearing new uniforms this year, only two or three have shown improved ability as a result of a change of scenery, and to be quite frank about it, most of them have been absolute flops.

O'Doul a "Bust"
The outstanding "bust" of the lot has been lefty O'Doul, who led the Phillies to fourth place in last year's race. Brooklyn fans figured, the acquisition of O'Doul and Chick Thompson from the Phillies would give them the 1931 Pennant, but lefty has compiled a frightful .156 average to date and Thompson was laid up with an injury until yesterday. O'Doul undoubtedly will be hitting them high and wide and handsome before many more New York magistrates resign, but meanwhile the agony in Brooklyn is terrible.

To make matters worse, Jumbo Elliott and Clise Dudley, who left Brooklyn when O'Doul and Thompson arrived, have won three games for the Phils. The fact that Elliott has beaten the Robins twice makes the Phils' situation even more frustrating. The Robins have gotten a .500 return thus far on their investment in Quinn and Joe Shantz. Quinn has lost one game and Shantz won one.

Smith Breaks Even
Bob Smith, obtained from Boston, has won one game for the Cubs and lost one. Willoughby lost one game for the Pirates just as easily as he used to do with the Phils last season.

Thenover and Bartell, who traded shortstop berths on the Phils and Pirates, have fared equally poorly. Thenover is hitting only .185 for the Bucs. Bartell is batting .243 and has made five errors in the field. Bill Egan, who came to Pittsburgh from the Red Sox, has a .125 average to date.

The veteran, Wally Schang, cast adrift by Connie Mack, has compiled an anemic mark of .095 with the Athletics. He is off for a year by the Giants, is hitting .211 for the Reds. Hal Lee, with Brooklyn last year, is batting with the Phils.

Rice Hitting .222
Phil Todd, traded from the Red Sox, has batted only .160 to show his appreciation to the A's. Harry Rice, obtained by Washington from the Yankees via the waiver route, is batting .222.

Donnie Bush, White Sox manager, and Dan Howley, Cincinnati pilot, are the only managers who have qualified as David Harum. Donnie Bush, who has been in the Browns and Lu is batting .375 for the Sox. Bush also picked a winner in Eicher, former Cleveland outfielder, who has hit .367 in two games, having collected four singles in as many times at bat yesterday. Roetger, ex-Giant, is hitting the ball at a .387 clip for the Reds.

Bill Hunnefeld, once a White Sox infielder, is batting .308 for Cleveland but has committed six errors at the shortstop post. Earl Sheely, up again from the minors, is hitting .371 for the Braves, and Wiley Moore, once a Yankee, is making a comeback with the Red Sox.

122,500 FANS AT SIX GAMES
(By INTERNATIONAL NEWS SERVICE)
A total of 122,500 baseball fans turned out for the six major league official home opening contests yesterday. The figures were as follows:
At New York 45,000.
At Brooklyn 25,000.
At Philadelphia 25,000.
At Boston 15,000.
At St. Louis 7,500.
At Chicago 5,000.

The Pittsburgh opener with the Cubs and the St. Louis-Detroit tilt slated for Detroit were both rained out.

Helen Wills Moody To Play Exhibition
SAN FRANCISCO.—(INS)—Mrs. Helen Wills Moody, noted tennis player, will appear in an exhibition game here Saturday against Anna McCune Harper of Oakland.

Bambino Impatient To Be Up Explains How He Got Injury

BOSTON.—(INS)—"Get me a crutch—a cane. Get me my clothes and let me out of here. What do they think I am, a kid that can't take a rap now and then?"

Such was the impatient today of Babe Ruth who left Peter Bent Brigham hospital.

"A bad wrench," said the doctors, "but no bones broken."

To his wife, at the bedside, the "Babe" described the incidents preceding his injury.

"I turned third and was coming in fast," said Ruth. "Boy, I must have been moving. Charlie Berry's a big boy. If I hit him the way I was going, we'd both have been killed. I turned to give him the hip so neither one of us would be hurt. Ash there I go and take the worst of it."

The morning bath should not be too hot for in some cases this is weakening. Take a warm tub, followed by a temperate shower, or if you like a warm spray then follow it by one as cold as you can comfortably stand. For your rub down use a heavy Turkish towel and rub the body vigorously. Never linger in the bath tub—get in, wash well, and get out!

Drink one or two glasses of water before breakfast. This need not be hot or cold—the ordinary faucet water will do. Breakfast, and in fact all your meals, should be eaten leisurely and thoroughly masticated. Gobble your food with your head in your hand before rushing for train or car will do more harm to your digestive organs than the few extra moments sleep, which make it necessary, can ever benefit the general system.

And now a word as to breakfast—it should, for healthful reasons, be a substantial meal. After a night's sleep the stomach and intestinal tract are completely empty and we cannot expect to do our best work or retain good health if we substitute a cup of coffee for a satisfying and nourishing breakfast. The average person crowds these meals into ten hours during the day and it is hardly fair to our digestive tract to crowd so much work upon it during the day and expect it to work for us without a good start in the morning.

ED DON GEORGE BEATS STASIAK
NEW YORK.—(INS)—Ed Don George, the former university of Michigan athlete, was on the "com-back" trail today. Recently defeated by Strangler Lewis, George won here last night from Stanley Stasiak, Polish grappler, when Stasiak failed to return to the ring after both had fallen into the press stand.

George, who was recognized as champion except in New York, wants a return match with Lewis or a bout against Jim London, recognized as titelholder in New York.

Those who are to be honored include:
Basketball—Sam Epstein, Sioux City; Morton Koser, Iowa City; Jack Kotlow, Woodcliff, N. J.; Charles Lauer, Wilmette, Ill.; Joe Mowry, St. Louis, Mo.; Julian Reinhardt, Iowa City; Marshall Reigert, St. Louis, Mo.; Al Rogers, Florence, Miss.; and Charles Williamson, Erie, Pa.

Swimming—Rollie Evans, Davenport; Wentworth Lobdell, Rockford, Ill.; William McCulley, Omaha, Neb.; Ray Mohl, New York, N. Y.; Steve Nielsen, St. Louis, Mo.; H. Stead, Des Moines; Jack McGuire, Des Moines; Milo Mitvalsky, Cedar Rapids.

Wrestling—Captain L. W. Poyner, Waterloo, N. W. Muller, Fort Dodge; C. H. Coughlan, Mingo, and H. C. Peer, Iowa City.

Gymnastics—Captain M. A. Lewis, Williamsburg; F. A. Merton, Davenport, and E. L. Kringsel, Atlantic.

Those who are to receive class numerals for spring football are: J. M. Barber, Nevada; J. H. Frick, Iowa City; G. P. Foster, Iowa City; W. S. Warden, Iowa City; T. W. Moore, Waterloo; W. G. Nugent, Gary, Ind.; J. B. O'Leary, Cherokee; H. E. Orris, Dubuque; C. G. Schmidt, Dyars and W. M. Willson, Waterloo.

START OFF DAY WITH EXERCISE, SAYS MCGOVERN

Health Expert Gives Simple Rules for Daily Life

By ARTHUR MCGOVERN

(Written Exclusively For and Copyrighted By International News Service, 1931.)
NEW YORK.—The way we start the day has much to do with the manner in which we spend the remainder of our time.

Irrespective of late hours the night before, we should arise every morning at a definite time and not indulge in the luxury of stolen minutes to make up for lost sleep.

If we can possibly do so—and it would be wise to sacrifice fifteen minutes of sleep—we should exercise regularly every morning to tone up the circulation which has become after the relaxation of sleep. This morning exercise need not be strenuous. A few simple movements will suffice to get the body in good condition.

The morning bath should not be too hot for in some cases this is weakening. Take a warm tub, followed by a temperate shower, or if you like a warm spray then follow it by one as cold as you can comfortably stand. For your rub down use a heavy Turkish towel and rub the body vigorously. Never linger in the bath tub—get in, wash well, and get out!

Drink one or two glasses of water before breakfast. This need not be hot or cold—the ordinary faucet water will do. Breakfast, and in fact all your meals, should be eaten leisurely and thoroughly masticated. FUNERAL HELD FOR J. GILES, MORNING SUN

Services Conducted in Nephew's Home in Mediapolis

MORNING SUN, Ia.—(Special)—Funeral services for Joseph Giles, 65, who died at his home near Northfield, Tuesday, were held today at 2 p. m. from the home of his nephew, James White in Mediapolis. Burial was made in the Kossuth cemetery.

Mr. Giles was born Oct. 10, 1845 in Hopkinton, North Hamptonshire, England. He came to America in April 1871, settling first in Chicago where he resided for some time. Later he moved to the vicinity of Burlington. For the past several years he has lived on his farm near Northfield.

His wife preceded him in death two years ago. Surviving are one daughter, Mrs. Frances Rudolph, one son, Lewis Giles, both of Chicago, and two nephews, Thomas and James White, of Mediapolis.

Mrs. Ray Barker returned to Burlington Tuesday to be with her daughter, Barbara, who is in the hospital there. The child is slowly recovering from injuries sustained recently when she fell from the hay mow at her home north of here.

The Parsons College Girls Glee club will give a concert in the Union church, April 27 at 8 p. m. John Gibbs and son Harold, of Grinnell, are visiting Mr. Gibbs' parents, Mr. and Mrs. O. S. Gibbs, here.

Mrs. Ruth Hamilton and son, Robert, and Mrs. Velma Clapp, Davenport, spent Monday with Mrs. Hamilton's mother, Mrs. Sadie Butler, here.

The condition of Hilton Harris, son of Mrs. Lee Harris, is reported favorable. Hilton was operated on for appendicitis at the Mercy hospital at Burlington, Friday.

Mr. and Mrs. Leland Krider, of Nichols, spent Sunday with the former's parents, Mr. and Mrs. J. H. Krider, of this place. Other guests at the Krider home Sunday were Mr. and Mrs. William Pearson and Mrs. W. Pearson, of Lone Tree.

Misses May and Daisy Stodgell, daughters of Mr. and Mrs. John Stodgell, have been re-elected to their present teaching positions. May will return to the schools at Rowan, Iowa, and Daisy to the schools at Pleasant Lawn.

A. H. Browning, of Mt. Vernon, is spending some time here with his son, Dr. W. W. Browning, and family.

Rev. W. J. Giffin and the following young people will go to Ft. Madison to attend the Young Peoples convention of the Presbyterian church to be held here Friday and Saturday: Verna Thompson, Harlan Naylor, Kyle Wilson, Margaret Giffin, and Beth Brown.

The executive committee of the young peoples work of the local Union church, will meet at the home of Rev. and Mrs. W. J. Giffin, Sunday. The various committees for the year will be appointed at this time.

Rev. M. Wylie Dougherty, Mrs. A. M. Kilpatrick, and son Kyle, motored to Kirksville, Mo., Wednesday to visit Dr. W. J. Giffin, who is a surgical patient in the hospital there.

WILL ADVOCATE 44-HOUR WEEK

Two Thousand Are Expected at Denver Convention

BY RICHARD RANDOLPH
DENVER — (INS)—Unemployment problems facing the International Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees will be threshed out at triennial meeting of the organization here May 11 to 21, according to George S. Levi, Cincinnati, Ohio, grand secretary-treasurer, who was in Denver recently making preparations for the convention.

At least 2,000 of the 138,000 members of the brotherhood are expected to attend the Denver meeting, Levi said. A meeting of the general chairman of the railroads west of Chicago will be held May 10 to 10 to complete matters of mutual interest that may be presented for discussion in the convention.

Less Work, Same Pay
"This is the first convention since the business slump, and one of our major problems will be to help the unemployed situation, which is rather serious among our members, many thousands being idle," Levi said. "We will advocate a shorter work week with no reduction in pay. Our work week is 44 hours and in some districts 48 hours and some roads demand a full day on Saturday."

"We are apprehensive about the effect railroads' consolidations may have on employment and no doubt some resolutions on the subject may be adopted. We also will discuss the proposed new law which is meeting from the bus and truck line, a business which naturally is hurting the menbers of the brotherhood."

Meet Every Three Years
Delegations from the east will arrive in special trains and those from Canada in special. Special trains will be provided to take delegates through the Royal gorge during the convention.

"Our brotherhood has a total membership of 1,400," Levi explained. "Our convention is long because we meet only once in three years. We meet the clerical forces of the railroads of Canada, Mexico and the United States and have headquarters in Cincinnati, Ohio. Our international president is George M. Harrison."

Kidnaped?

(AP Photo)

The above photo shows Dr. L. D. Kelley Jr., prominent St. Louis specialist and son-in-law of late William Cullen McBridge, all magistrate, who was lured from his home and kidnaped, according to the police. This picture was transmitted to Chicago over the telephone.

ILLINOIS WILL HAVE AIRPORT COMMISSION

State Ranks Fifth in Expenditures for Aviation

By HENRY MOLDEN
SPRINGFIELD, Ill. — (INS)—A steady development, with no booms or slumps, seems to be the tendency of aviation in Illinois for 1931.

The desire to put the air industry on a firm basis for future growth is reflected in the action of the state senate which recently passed a resolution providing for the appointment of an aeronautics commission which will require all aircraft and pilots operating in the state to comply with the regulations of the United States Department of Commerce.

All aspects of air travel and aviation are required to secure a license from this commission and the commission is authorized to make rules and regulations respecting them. The commission will include five members, appointed by the governor, two of whom will be regular pilots.

Other bills introduced in the legislature show the interest of the law-makers in properly regulating flying. One bill provides for the licensing of all airmen and aircraft by the secretary of state; another permits any village or city to levy a small tax for construction of airports.

Ranks Fifth
Illinois ranks fifth in expenditure on airport development to date, according to a bulletin of the Illinois Chamber of Commerce, the state being given \$6,102,000. This state, with 687, ranks third in the number of licensed and unlicensed aircraft being surpassed by New York and California. The same order holds for licensed craft, Illinois having 475, but Illinois has the doubtful honor of leading in the number of unlicensed craft, with 192.

Springfield is a fairly active aviation center, being on the Chicago-St. Louis airline and the stopping place for both Universal Air line planes and The Century Airline which inaugurated a service late in March.

It is because of its remarkable success and the definitely calculable reaction of screen fans that a definite policy regarding its future is being evolved. The trend of the times, has been announced.

"Scandal Sheet" not radically different from any of the preceding pictures in the mental characteristics of the figure portrayed by Bancroft, brought a definite reaction from the women. The entire plot and its dramatic significance hinged on the effect a woman's life could have on the life of the man in the story.

As in many classics on the screen and of literature where men predominate in numbers and in works but women dominate in theme, the hard-boiled editor, sensitive to no such thing as a star whose appeal is to men only—if that star is really important. The interest of women in pictures is in daily sins and dispatches to all parts of the metropolitan area.

LIVES ON WORMS
NEW YORK — (INS)—All men may be destined to feed worms, but John F. Brunner here makes worms feed him. Like his father before him, Brunner is New York's leading worm farmer.

With the opening of the trout season he is rushed with orders for earthworms, hellgramites and night crawlers, which he puts up in jars and dispatches to all parts of the metropolitan area.

CONVICTS CAN COME BACK IF GIVEN CHANCE

Famous Outlaw, Now Reformed, Tells Reasons

By GILBERT GORDON
SACRAMENTO, Calif. — A tall physically-trim stranger, wearing a business pepper-and-salt suit, stood before the desk of Governor James Rolph, Jr.

"I'm Emmett Dalton," last of the Dalton boys," the visitor introduced himself.

Governor Rolph's memory flashed back to Coffeyville, Kas., 39 years ago when Emmett, Bob and Gratton Dalton staged a bank hold-up which took a toll of eight lives. Bob and Gratton were shot dead, while Emmett recovered from twenty bullet wounds and was given a life sentence.

Two-Gun Outlaw
Emmett was then a 22-year-old two-gun outlaw, and was pardoned after serving 14 years. He's 60 now, still tall and husky, and peacefully rounding out a colorful career as a "sit down" let's talk. Governor Rolph invited. "First, what do you think of capital punishment?"

"I'm against it—it's no deterrent to murder. There isn't any such thing as a blood-thirsty murderer. If I shot you now, I'd be crazy."

The governor then timidly asked the last of the Daltons if he had ever killed anyone.

"If I ever had, I wouldn't tell anyone about it," was the quick answer.

"If you were governor, what would you do for prison reform?" Rolph then asked.

Overcoming a Curse
"The greatest curse is the overcrowding of prisons. Every man should have a cell for himself. I also believe in the parole—it puts a man on his honor. Severity of sentence makes a man harder—they give up hope—they are like animals in cages."

Dalton brought the subject back to capital punishment.

"Some people contend that the gallows is a crime deterrent. But the stickman was followed by an equally revolting crime in the murder of the little Brooks girl in San Diego. These slayers are all crazy. So was Keaton when he shot Molly Flint."

Governor Rolph then asked Dalton his opinion of restoring citizenship to released convicts.

"I'm in favor of it—it gives a man the hope to begin life anew. They can be made something better than the tainted animals I know I came back. And so can many of the others."

Other bills introduced in the legislature show the interest of the law-makers in properly regulating flying. One bill provides for the licensing of all airmen and aircraft by the secretary of state; another permits any village or city to levy a small tax for construction of airports.

Illinois ranks fifth in expenditure on airport development to date, according to a bulletin of the Illinois Chamber of Commerce, the state being given \$6,102,000. This state, with 687, ranks third in the number of licensed and unlicensed aircraft being surpassed by New York and California. NEWSY NOTES OF NEW YORK FILM CIRCLES

Mary Nolan-Robinson-Wilson-Macraery It Is Now

BY DAVID F. SENTNER
NEW YORK — The line before the ticket-window of the movie "Front Page" is longer than any headline in town. It's still a rat-tat-tat of a picture even if they have taken the cuss words out. Any way all newspapermen don't swear.

Some wish they could. In the movie version the audience is informed it all happened in "A mythical kingdom" in the stage production it was labeled the Criminal Court Building press room in Chicago. . . .

In the film "Body and Soul" the men aviators are shown playing ping-pong in their barracks. Also with Charlie Farrell wouldn't this be the Boston school of expression when he says "He strangled a balloon and they got him" . . .

Dick Barthelmess and Joe E. Brown play a part in the story incorporated into the first of Bobby Jones' series of a dozen one-reel short pictures on "How I Play Golf" scheduled for release April 27. The first of the series is called "The Putter" . . .

Mary Nolan, the former Imogene Wilson, whose real name is Mary Robertson, dropped in from Hollywood and got married to Wallace T. Macraery, Jr., who not so long ago was a page on the New York City Exchange. Mary is now playing "Diamond Lil's Daughter" for Mae West on the Broadway two-by-fours. . . .

Some go Broadway and some go Hollywood. Mary Nolan, who is only Chinese-American actress starring on Broadway stage has just been signed by Paramount. Anna was born in San Francisco. She is a native of the English like a lady professor as well as French and German. Jesse L. Lasky thinks well of her. She has youthful beauty combined with mature acting powers and has mellow voice. . . .

full of strong men, determined, forceful characters, whose lives will be found motivated by women. Nothing detailed is known of the first picture to be made under Bancroft's new contract; suffice to say that it will contain the elements of the most far-reaching essential for feminine interest.

Having traveled over most of the world in the navy, and throughout the United States in vaudeville, he is now in the studio in Hollywood, ready to work after several months of "active boating," a rest period devoted to relaxing sports and amusements. But he will play no characters into whose lives women have never entered, no brutes impervious to women—for women, it seems, enter like all men's lives, even those of stars and producers!

As in many classics on the screen and of literature where men predominate in numbers and in works but women dominate in theme, the hard-boiled editor, sensitive to no such thing as a star whose appeal is to men only—if that star is really important. The interest of women in pictures is in daily sins and dispatches to all parts of the metropolitan area.

JACK SUGGESTS FIGHT AT RENO

RENO, Nev. — (INS) — Jack Dempsey today was considering the possibility of promoting a heavy-weight championship fight in Reno.

The ex-champion pugilist, who is here too for the purpose of establishing residence that he may sue Estelle Taylor for a divorce, declared Reno is an ideal spot for such a fight. He declared, however, he was not personally interested in the promotion of it, but would be willing to act as referee.

Meanwhile, it is reported that Joe Scott, Estelle's attorney at Los Angeles, was going to demand a show-down on the screen actress' proposed suit against Dempsey.

East Mendenhall, New York, defeated Joe Toots Mondt, Colorado. Herbie Freeman, New York, downed Carl Lemmie, New York.

Iowa Pearl Squad Beats Court Team By 12 to 2 Score

The old jinx that bothered the Court House Demons in their initial practice kickenball game, was present again Wednesday night when the employees of the county building lost to the Iowa Pearl Butte company squad at Weed park by a score of 12 to 2.

The button cutters were more experienced in the kickenball art than the county team and led their opponents throughout the game. Almore, a kickenball reporter, performed excellent work for the court house team as a substitute for Clyde Parks.

Grinnell 'G' Club Plans Track Meet

GRINNELL, Ia. — (Special) — Grinnell college honor "G" club announces that it will sponsor its twenty-fourth annual Grinnell interscholastic track meet for high school athletes here May 2. Club officers are expecting the usual number of more than forty teams.

Mason City last year took first place with 33 1-3 points; Davenport was second; and Newton third.

Uncle Sam Needs A Wife Says Woman Member of House

KANSAS CITY, Mo. — (INS) — "Uncle Sam has been a bachelor long enough—he needs a wife!" That is what Representative Ruth Bryan Owen of Florida told the Woman's City club here.

"I agree that woman's place is in the home, but a home is where the family lives, and that is anywhere that can be traveled in a car," she said. "Isn't it useless for me to confine myself to keeping four walls safe for my children when, as a matter of fact, a few days ago I stood out in the yard waiting for my young daughter to come home in an airplane?"

Woman's love of beauty and man's practical knowledge both are needed in a community. The community and the whole nation has become the home today, and woman's place is in that home.

Mrs. Owen declared that women have a great many opportunities for education and that provide means of keeping the family together.

Strange Story of Domestic Life Revealed in Colorado
Greeley, Colo. — (INS)—A strange story of domestic life on the dry lands of eastern Colorado was being pieced together here with the arrest of William E. Thompson, 28, on charges of kidnaping.

Thompson, dry land farmer and ex-convict, was arrested in Akron, Colo., Saturday for the kidnaping of 15-year-old Keeta high school girl. According to sheriff's officers here Thompson, his wife and four children, ranging in age from seven months to eight years, and the

KEARNS AFTER HYMIE WISEMAN

DES MOINES — (INS) — Jack Kearns, manager of Mickey Walker, world's middleweight champion, and former handler of Jack Dempsey, has offered \$10,000 for the contract of Hymie Wiseman, provided he defeats Johnny Datto Monday night. It was revealed here today.

Roy C. Felman, who with Dave Fisher, handles the affairs of the local scrapper, received the telegram and the two managers are considering the offer.

Kearns was at the ringside at the Wiseman-Datto battle in Chicago recently. He was impressed with the work of the Des Moines mite.

HAWKEYE RELAY TEAMS CHOSEN

TOWA CITY, Ia. — (INS)—Announcement was made here today as to the personnel of the six University of Iowa relay teams which are to compete in the annual Drake relays at Des Moines tomorrow and Saturday.

The men, 30 of them, will leave for Des Moines tomorrow morning by automobile. Coach George T. Bresnahan said.

Here are the probable relay starters:

440-yards — Beckner, Hubbard, Adams, Conway.

880-yards — Lagerquist, Ferguson, Adams, Conway.

Two-mile — Isaac, Wickey, Klevin, Skowbo.

Medley — Hoskinson, 440; Skowbo, 880; Isaac 3-4 mile; and Wickey, mile.

Shuttle hurdlers — Gordon, Willer, Thurston, Handorf.

It is also likely that the Hawkeyes will be represented in all of the ten individual events. These men are certain to compete: Gordon, high and broad jump and hop, stop and jump; Albin, broad jump and hop, stop and jump; Welson and Hansen, Javelin; McCleod, 100 yards; Bryant and McCleod, high hurdles; Tract, two mile; Youngerman, Hammer and discus; Massey, shot and discus; and Mathias, hammer.

Abilene Christian College Expected To Break Own Mark

DES MOINES, Ia. — (INS)—Not all of the record breaking to be done in the Drake relays here April 24 and 25 will be credited to the university track stars who will participate.

A quartet of fast moving Texans representing Abilene Christian college of Abilene, Texas, will arrive in Des Moines early next week. They came here a year ago and smashed the Drake record in the college medley relay. They are virtually certain of breaking their own mark in the meet this year.

The Abilene quartet, coached by Edie Weems, is made up of Gray Weems, Lawrence and Wood. At the Rice relays this spring the Abilene runners won the college medley in 3:31 6-10. Their time was nearly two seconds faster than their own Drake record of 3:33 3-10.

Adams, a star discus thrower from Abilene, also is expected to show to advantage in the Drake games.

Negro Has Trouble Proving He Is Alive

SAN FRANCISCO — (INS)—Amos McDade, negro and veteran of the World war, is having a tough time these days trying to convince people he is not dead.

The people he is interested most in convincing are the staff of the local Veterans Bureau where he has made application for a bonus loan. Shortly after he had made his application, he dropped around to the office to find out why the loan had not been granted.

He found out that he was dead. Records showed that his adjustment certificate had been sent to Washington eight months ago to be paid in full, because McDade was "deceased."

The local office doesn't know whether anybody actually collected on the death of McDade. But it does know that McDade cannot get his loan—at least not until he brings in enough records with convincing proof that he's alive and entitled to be walking around.

Governors Avoid Prohibition Issue

ALBANY, N. Y. — (INS)—Prohibition and other controversial political matters will be tabooed as subjects of discussion at the annual conference of governors to be held at French Lick, Ind., June 1 to 3. It was decided here at a meeting of the legislative committee.

Gov. Norman S. Case of Rhode Island, chairman of the executive committee which held a two-day session in Albany at the invitation of Gov. Franklin D. Roosevelt of New York to draft the conference agenda, made it plain that prohibition will be carefully avoided in all discussions at the forthcoming conference.

URGES PEACE MARRIAGES
PARIS — (INS)—A strong plea for more international marriages, and especially more Franco-German alliances, has recently been made by the French writer, Maurice de Waleffe, in the "Paris Mid." "If we want peace, let us have international marriages, and lots of 'em," urges the writer. "The day that we wake up and find millions of French-German households on either side of the Rhine there will be no more need of machine guns, I assure you."

FUNERAL HELD FOR J. GILES MORNING SUN

Services Conducted in Nephew's Home in Mediapolis

MORNING SUN, Ia.—(Special)—Funeral services for Joseph Giles, 65, who died at his home near Northfield, Tuesday, were held today at 2 p. m. from the home of his nephew, James White in Mediapolis. Burial was made in the Kossuth cemetery.

Mr. Giles was born Oct. 10, 1845 in Hopkinton, North Hamptonshire, England. He came to America in April 1871, settling first in Chicago where he resided for some time. Later he moved to the vicinity of Burlington. For the past several years he has lived on his farm near Northfield.

His wife preceded him in death two years ago. Surviving are one daughter, Mrs. Frances Rudnick, one son, Lewis Giles, both of Chicago, and two nephews, Thomas and James White, of Mediapolis.

Mrs. Ray Barker returned to Burlington Tuesday to be with her daughter, Barbara, who is in the hospital there. The child is slowly recovering from injuries sustained recently when she fell from the hay mow at her home north of here.

The Parsons college girls club will give a concert in the Union church, April 27 at 8 p. m. John Gibbs and son Harold, of Grinnell, are visiting Mr. Gibbs' parents, Mr. and Mrs. O. S. Gibbs, here.

Mrs. Ruth Hamilton and son, Robert, and Mrs. Velma Clapp, of Davenport, spent Monday with Mrs. Hamilton's mother, Mrs. Sadie Butler, here.

The condition of Hilton Harris, son of Mrs. Lee Harris, is reported favorable. Hilton was operated on for appendicitis in the Mercy hospital at Burlington, Friday.

Mr. and Mrs. Leland Krider, of Nichols, spent Sunday with the former's parents, Mr. and Mrs. J. H. Krider, of this place. Other guests at the Krider home Sunday were Mr. and Mrs. William Pearson and Mrs. W. Pearson, of Lone Tree.

Misses May and Daisy Stodgell, daughters of Mr. and Mrs. John Stodgell, have been re-elected to their present teaching positions. May will return to the schools at Rowan, Iowa, and Daisy to the schools at Pleasant Lawn.

A. H. Browning, of Mt. Vernon, is spending some time here with his son, Dr. E. W. Browning, and family.

Rev. W. J. Giffin and the following young people will go to Ft. Madison to attend the Young Peoples convention of the Presbyterian church to be held there Friday and Saturday: Verna Thompson, Harlan Naylor, Kyle Wilson, Margaret Giffin, and Beth Brown.

The executive committee of the young peoples work of the local Union church, will meet at the home of Rev. and Mrs. Giffin this evening. The various committees for the year will be appointed at this time.

Rev. M. Wylie Dougherty, Mrs. A. M. Kilpatrick, and son Kyle, are expected to visit Florence Kilpatrick who is a surgical patient in the hospital there.

WILL ADVOCATE 44-HOUR WEEK

Two Thousand Are Expected at Denver Convention

By RICHARD RANDOLPH DENVER, (INS)—Unemployment problems facing the International Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees will be thrashed out at triennial meetings of the organization here May 11 to 21, according to George S. Levi, Cincinnati, Ohio, grand secretary-treasurer, who was in Denver recently making preparations for the convention.

At least 2,000 of the 135,000 members of the brotherhood are expected to attend the Denver meeting, Levi said. A meeting of the general chairman, of the railroad west of Chicago will be held May 7 to 10 to complete matters of mutual interest that may be presented for discussion in the convention.

Less Work, Same Pay "This is the first convention since the business slump, and one of our major problems will be to help the unemployed situation, which is rather serious among our members, many thousands being idle," Levi said. "We will advocate a shorter work week with no reduction in pay. Our work week is 44 hours and in some districts 48 hours, as some roads demand a full day on Saturday."

Meet Every Three Years Delegations from the east will arrive in special trains and those from Canada in special cars. Special trains will be provided to take delegates through the Royal gorge during the convention.

"Our brotherhood has a total membership of 1,000,000," Levi explained. "Our convention is long because we meet only once in three years. We embrace the clerical forces of the railroads of Canada, Mexico and the United States and have headquarters in Cincinnati, Ohio. Our international president is George M. Harrison."

Kidnaped?

The above photo shows Dr. D. Kelley Jr., prominent St. Louis specialist and son-in-law of late William Cullen McBridge, oil magnate, who was lured from his home and kidnaped, according to his wife. This picture was transmitted to Chicago over the telephone.

ILLINOIS WILL HAVE AIRPORT COMMISSION

State Ranks Fifth in Expenditures for Aviation

By HENRY MOLDEN SPRINGFIELD, Ill.—(INS)—A steady development, with no boom or splurge, seems to be the tendency of aviation in Illinois for 1931.

The desire to put the air industry on a firm basis for future growth is reflected in the action of the state senate which recently passed a resolution providing for the appointment of an aeronautics commission which will require all aircraft and pilots operating in the state to comply with the regulations of the United States Department of Commerce.

All airports, air schools and air bases are required to secure a license from this commission, and the commission is authorized to make rules and regulations respecting them. The commission will include five members, appointed by the governor, two of whom will be regular pilots.

Other bills introduced in the legislature show the interest of the law-makers in properly regulating flying. One bill provides for the licensing of all airmen and aircraft by the secretary of state; another permits the village or city to levy a one-mill tax for construction of airports.

Ranks Fifth Illinois ranks fifth in expenditure on airport development to date, according to a bulletin of the Illinois Department of Commerce, the amount being given as \$6,102,000. This state, with 667, ranks third in the number of licensed and unlicensed aircraft being surpassed by New York and California. The same order holds for licensed craft, Illinois having 475, but Illinois has the doubtful honor of leading in the number of unlicensed craft, with 192.

Springfield is a fairly active aviation center, being on the Chicago-St. Louis airline and the stopping place for both Universal Air line planes and The Century Airline which inaugurated a service late in 1930. The Commercial Airport was used by 475 visiting planes and 720 regular mail and passenger planes. During 1930, 2,023 passengers were carried by planes from this 123-acre port, and total landings of all forms of airplanes were 2,755. Plans for this year include resurfacing runways, rolling and grading the landing area.

May Vote Airport Tax Great progress during 1931 is forecast for Peoria in aviation by its leaders. An airport tax to be used for new and adequate airport developments will be voted on early this spring. Funding this income the airport is being leased and maintained by public subscription and some help from the municipality. The present airport is used twice daily by Chicago-St. Louis planes, and commercial activities are also carried on at a second airport. Mt. Hawley. About 200 pounds of mail are received and sent every week. A rotating beacon and boundary lights provide facilities for night port, and many of the medium-sized cities in the state have airports supported and promoted by Chambers of Commerce. Champaign, a typical farm town, has a 35-acre airport, located two miles from the business district, and developed by the Chamber of Commerce which leases it to a pilot-manager. LaSalle, on the Chicago-Kansas City air route, is raising money to install nightlights and looking forward to being on the proposed express and passenger line from Oklahoma City to Chicago.

LIVES ON WORMS NEW YORK, (INS)—All men may be destined to feed worms, John F. Brunner makes worms and flies his father before him. Brunner is New York's leading bait seller.

With the opening of the trout season he is rushed with orders for earthworms, hellgramites and night crawlers, which he puts up in dainty tins and dispatches to all parts of the metropolitan area.

CONVICTS CAN COME BACK IF GIVEN CHANCE

Famous Outlaw, Now Reformed, Tells Reasons

By GILBERT GORDON SACRAMENTO, Calif.—A tall, physically-lean stranger, wearing a business pepper-and-salt suit, stood before the desk of Governor James Rolph, Jr.

"I'm Emmett Dalton," last of the Dalton boys, the visitor introduced himself.

Governor Rolph's memory flashed back to Colofordville, Kas., 39 years ago when Emmett, Bob and Gratton Dalton staged a bank hold-up which took a toll of eight lives. Bob and Gratton were shot dead, while Emmett recovered from twenty bullet wounds and was given a life sentence.

Two-Gun Outlaw Emmett was then a 22-year-old two-gun outlaw, and was pardoned after serving 14 years. He's 60 now, still tall and husky, and peacefully residing out a colorful career as a Los Angeles real estate dealer. "Sit down—let's talk," Governor Rolph invited. "First, what do you think of capital punishment?"

"I'm against it—it's no deterrent to murder. There isn't any such thing as a cold-blooded murder. If I shot you now, I'd be crazy."

The governor then timidly asked the last of the Daltons if he had ever killed anyone.

"If I ever had, I wouldn't tell anyone about it," was the quick answer.

"If you were governor, what would you do for prison reform?" Rolph then asked.

Overcrowding a Curse "The greatest curse is the overcrowding of prisons. Every man should have a cell for himself. I also believe in the parole—it puts a man on his honor. Severity of sentence makes a man harder—they give up hope—they are like animals in cages."

Dalton brought the subject back to capital punishment. "Some people contend that the gallows is a crime deterrent," he said. "The Hickman case was followed by an equally revolting crime in the murder of the little Brooks girl in San Diego. These slayers are all crazy. So was Keaton when he shot Motley Flint."

Governor Rolph then asked Dalton his opinion of restoring citizenship to released convicts.

"I'm in favor of it—it gives a man the hope to begin life anew. They can be made something better than tainted animals. I know. I came back. And so can many of the others."

In the film "Body and Soul" the he-men aviators are shown playing ping-pong in their barracks, also with Charlie Farrell wouldn't use the Boston school of expression when he says "He sir-ah-let a balloon and they got him"....

Dick Barthelmess and Joe E. Brown play a part in the story incorporated into the first of Bobby Jones' series of a dozen one-reel short pictures on "How I Play Golf" scheduled for release April 27.... The first of the series is called "The Putter"....

Mary Nolan, the former Imogene Wilson, whose real name is Mary Robertson, dropped in from Hollywood and got married to Wallace T. Macgregor, Jr., who not so long ago was a page on the New York Currier Exchange.... Mary may play "Diamond Lil's Daughter" for Mae West on the Broadway two-by-fours....

Some go Broadway and some go Hollywood.... Anna May Wong, only Chinese-American actress starring on Broadway stage has just been signed by Paramount to play "The Sign of the Cross".... The first picture to be made under Bancroft's new contract; suffice to say that it will contain the elements of romance and humanism essential for feminine interest.

Having traveled over most of the world in the navy, and throughout the United States in vaudeville, besides incidental trips to Europe for pleasure, Bancroft has in his life contacted almost all manner of people and things. He boxed in the navy, wrestled and stroked an oar with them in school, danced and clowning with them in vaudeville, worked with them on the stage and in pictures.

And now the man who won fame by laughing instead of sneering in a villain's role and who played his parts honestly and simply, is back in Hollywood and ready to work after several months of "active loafing," a rest period devoted to relaxing sports and amusements. But he will play no characters in whose lives women have never entered, no brutes impervious to women—for women, it seems, enter into all men's lives, even those of stars and producers!

When a star has achieved the success that Bancroft has, building a career on the characterization of strong men and hard men with honest simplicity as the keynote of each characterization, he is called "a man's man." In reality, there is no such thing as a star whose appeal is to men only—if that star is really interesting, the interest of women in pictures is vital importance.

And life, say movie executives, is

Completes Tour

Joeett Shouse, chairman of the Democratic national committee, returning to New York after a swing through the western states, passed through Chicago with predictions that prohibition, unemployment, and the federal farm board would be dominant issues in next year's presidential campaign.

NEWSY NOTES OF NEW YORK FILM CIRCLES

Mary Nolan-Robinson-Wilson-Macgregary It Is Now

By DAVID F. SENTNER NEW YORK—The life before the tick of the clock of the movie "Front Page" is longer than any breadline in town.... It's still a rat-tat-tat of a picture even if they have taken the cuss words out.... any-way all newspapermen don't swear like district reporters.... some wish they could.... in the movie version the audience is informed that all happened in a mythical kingdom.... in the stage production it was labeled the Criminal Court Building press room in Chicago....

In the film "Body and Soul" the he-men aviators are shown playing ping-pong in their barracks, also with Charlie Farrell wouldn't use the Boston school of expression when he says "He sir-ah-let a balloon and they got him"....

ADDITIONAL SPORTS JACK SUGGESTS FIGHT AT RENO

RENO, Nev.—(INS)—Jack Dempsey today was considering the possibility of promoting a heavy-weight championship fight in Reno.

The ex-champion pugilist, who is here too for the purpose of establishing residence that he may sue Estelle Taylor for a divorce, declared Reno is an ideal spot for such a fight. He declared, however, he was not personally interested in the promotion of it, but would be willing to act as referee.

Meanwhile, it is reported that Joe Scott, Estelle's attorney at Los Angeles, was going to demand a showdown on the screen against proposed suit against Dempsey.

RING VERDICTS

By INTERNATIONAL NEWS SERVICE At San Francisco—Jimmy Evans, Vallejo, Cal., welterweight, defeated Claude Capley, Sausalito, (10).

At Reno, Nev.—Ray Kosky, San Francisco welterweight, won on a foul from Charlie Miller, Reno, (4).

At Milwaukee—Tait Littman, Milwaukee middleweight, beat Willie Oster, Boston, (10).

Ray Trumble, Rockford, Ill., won division over Del Fontaine, Winnipeg.

At Cleveland—Bucky Graham, Rochester, N. Y., featherweight, defeated Johnny Datto, Cleveland Filipino, (6).

At Akron, O.—Meyer (K. O.) Christian, Akron heavyweight, defeated Frankie Wine, Butte, Mont., (10).

MAT RESULTS By INTERNATIONAL NEWS SERVICE At New York—Ed Don George, former University of Michigan athlete, defeated George Stasiak, Poland.

Al Morelli, Providence, defeated Al Arnold, Boston.

Serge Kaimikoff, Siberia, won from Richard Shikat, Philadelphia.

Renato Gardino, Italy, defeated John Rodunsky, Russia.

Earl Macready, New York, defeated Joe Toots Mondt, Colorado.

Herbie Freeman, New York, downed Carl Lemmie, New York.

Iowa Pearl Squad Beats Court Team By 12 to 2 Score

The old line that bothered the Court House Demons in their initial practice kiltball game, was present again Wednesday night when the employees of the county building lost to the Iowa Pearl But-ton company squad at Weed park by a score of 12 to 2.

The button cutters were more experienced in the kiltball art than the county team and led their opponents throughout the game. Fred Brandenburg, court reporter, performed excellent work for the county team as a substitute for Clyde Parks.

Grinnell 'G' Club Plans Track Meet

GRINNELL, Ia.—(Special)—Grinnell College Honor "G" club announces that it will sponsor its twenty-fourth annual track and athletic track meet for high school athletes here May 2. Club officers are expecting the usual entry of more than forty teams.

Mason City last year took first place with 33 1-3 points; Davenport was second; and Newton third.

Uncle Sam Needs A Wife Says Woman Member of House

KANSAS CITY, Mo.—(INS)—"Uncle Sam has been a bachelor long enough—he needs a wife!" That is what Representative Ruth Bryan Owen of Florida told the Woman's City club here.

"I agree that woman's place is in the home, but a home is where you can't get away from it. Where that can be traveled in a car," she said. "Isn't it useless for me to confine myself to keeping four walls safe for my children when, as a matter of fact, a few days ago I stood out in the yard waiting for my young daughter to come home in an airplane?"

"Woman's love of beauty and man's practical knowledge both are needed in a community.... community and the whole nation has become the same today, and woman's place is in that home."

Mrs. Owen declared "that women have a great many opportunities for education and that provide means of keeping the family together."

PARIS LURING OUR TOURISTS

City in Spring Garb to Greet American Guests

By ALICE LANGELIER

PARIS—It's tulip time in the Tuileries again, and this is a sure sign of spring in Paris. There are red tulips and yellow ones, white tulips and those of a purplish tint. They all came from Holland, the gift of the Dutch flower merchants sent with greetings from Queen Wilhelmina.

When the tulips are gone, they will be replaced by geraniums, be-

gonias and all the varieties of carnations so that the gardens will be continually in bloom. Paris must be particularly beautiful this summer to receive the many thousands of visitors to her Colonial Exposition which is now in preparation and which is expected to be the big drawing-card.

Everything is being done to attract the tourists. The most recent move is the abolition of passports and visas for visitors coming to France for five months. Americans will be more than glad about this piece of news which means a saving of six dollars for the passport and another two for the French visa, not to mention any amount of trouble and bother.

Now, all that Americans sailing for French ports have to do is to provide themselves with some kind of identity papers and have them stamped at a French consulate free of charge. Birth certificates, mar-

riage licenses etc., will be recognized for establishing identity.

Naturally, passports must be provided if one wishes to visit other countries.

If they can just wait long enough, the tourists will get about everything they want. Now the East Station, the Gare de l'Est has installed baths, bootblack stands, coiffure salons, quick pressing parlors and a number of other conveniences for the traveler who arrives dusty and dirty. There are also stenographers on hand to write important letters, flower-shops, reading-rooms and a theater bureau where all tickets can be bought.

Some of the oldest inhabitants are suggesting that the great surplus of gold which is lying dormant in the vaults of the Bank of

France might be put to work and re-gild the dome of the Invalides, beneath which Napoleon's remains are resting. The job would cost about \$120,000, and the government feels that it should not go to this great expense this spring.

The dome has been re-gilded only twice since it was built in 1670 but it will probably be obliged to wait another season or two before getting a cleaning. Other parts of the famous building which is probably visited by tourists more than any other in the capital, demand immediate repairs.

Signs of the time come by way of the old scissors-grinder in Paris who now disports a comfortably arranged 4-cylinder car at the back of which is affixed his grinding-wheel which is worked by motor. This takes the place of his little old push-cart with a pedal wheel. Ev-

erybody used to know him by his familiar bell; now he hefts an up-to-date motor-horn.

The chair-mender too, is putting on fine style, and now plies his trade in a smart, little autocar instead of the one-horse shay familiar to smart shopkeepers of the rue de la Paix. His daughter, who seeks the business, sits on the front seat beside her father-driver, and the chairs to be mended are piled on the back seat.

ATTACKS COMMUNISTS

SAN FRANCISCO (INS)—Mrs. Lowell Fletcher Hobart, of Washington, D. C., president of the Daughters of the American Revolution, believes that communist schools imperil U. S. ideals. When she spoke here at the 23rd state convention of the D. A. R. she made an earnest plea to defend the invasion of Communist propaganda in the United States.

HAVERFORD, Pa. (INS)—Despite the fact that Haverford College students have led 30,000 undergraduates taking examinations of the American Council on Education for the past three years and have ranked first in the intellectual tests given the Seniors in 40 Pennsylvania colleges, the little Quaker institution is planning still further improvements of its educational program. Details of the new system will be announced by President Wm. W. Comfort, on Haverford's 150th Anniversary Day, April 18th.

BRUSSELS (INS)—Little Josephine Charlotte, young daughter of Prince Leopold, heir to the Belgian throne, is now studying the violin with Eugene Ysaie, celebrated Belgian violinist, now 73 years old. Like her popular grandmother, Queen Elizabeth, the little princess shows a little musical talent and can now play a few tunes remarkably well.

Mr. and Mrs. Albert Guyer were Rock Island visitors Sunday.

Mr. and Mrs. E. J. Cryder were weekend visitors at the home of their daughter, Mrs. Fred Wilks.

Head, will hold its annual meeting Friday afternoon and Saturday morning. Deans of colleges will meet with the presidents' organization Friday afternoon. Directors of local colleges will also attend the meeting.

QUIRKS OF FATE LED MAN INTO FILM CAREERS

Chance Decides Life Work of Many Stars

By JAMES E. HILMAN
HOLLYWOOD, Calif.—(INS)—With original plans to follow careers far removed from the motion picture field, many of Hollywood's most successful film stars, turned to the screen through queer twists of fate.

In many instances accidental contract with film executives, ever alert in their quest for new screen talent, has brought stardom to many who were unaware of their acting ability. These selections are few, however, compared to the thousands lacking screen talent who daily attempt to crash the barriers of the film lobby. The motion picture industry does not encourage these fortune hunters, but when promising material is found no time is lost in developing it.

Phillips Holmes was strolling on the campus at Princeton University when Frank Tuttle, well known director who was telephoning a college picture, saw him. He referred him a film test. The juvenile star accepted and his motion picture career was launched. Within a year he appeared in leading roles in several productions.

Richard Arlen, portrayed of the man who entered the films following what he termed a "lucky break." Arlen was employed as a messenger and met with an accident while riding past a Hollywood studio. He was carried into a director's office and offered him a small part in a picture.

Sheer comical bravado secured Jack Oakie his first job in the movies. He has been featured in many farcical and musical comedy productions.

Mary Brian, Texas beauty, came west as a commercial artist. Not satisfied with that occupation she obtained a small part in a picture. A prominent director saw her and gave her a part in "Peter Pan." She has since been featured as the heroine in western pictures, opposite Richard Arlen.

Searching for a suitable leading woman Maurice Chevalier came across Frances Dee in a restaurant. He decided to make her his leading lady. Chevalier offered her a bit in his picture. Prominent roles followed and the actress is now recognized as one of the most promising of Hollywood's feminine players.

Charles Rogers took a film test mostly out of curiosity. He gave no further thought. Later he was selected for a place in pictures and has appeared in many productions.

Jean Herschell, well known character actress, who has been appointed head of the national Olympic games committee by the King of Denmark. Herschell started organizing a sub-committee to composed of prominent Danish-American citizens. This committee will arrange receptions and accommodations for Danish athletes and spectators who will come to Los Angeles to compete in the Olympic games.

Herschell was once a famous actor and painter in Denmark before he entered the movies. He was chosen from a group of leading men of Danish birth in this country.

Chinese Student at Grinnell Is Given Chemistry Awards

GRINNELL, Ia.—(Special)—Raymond Tseng of Lu Ho, Tungshai, Peking, China, a senior at Grinnell college, has been granted a graduate assistantship in chemistry at the University of Illinois for next year. Mr. Tseng is the fifth student in chemistry at Grinnell college to receive a fellowship or assistantship this year in various universities.

This assistantship will enable Tseng to work on his master's degree. He hopes later to go to an eastern university to study medicine and then spend a year in Germany studying industrial chemistry before returning to China where he plans to be associated with an industrial chemical concern.

Iowa State College Bomb Staff Elected

AMES, Ia.—(Special)—Arlo W. Paul, Odebolt, and Clarence Pechacek, Sioux City, have been elected editor and business manager, respectively, of the Iowa State College Bomb, yearbook, for 1931-32.

Bert Jarrett is seriously ill of pneumonia.

Albert Gatzke, of Wilton, accompanied his mother, Mrs. Adolf Gatzke, and sister, Mrs. Carl Phillips to Mt. Pleasant Wednesday to visit Mrs. Gatzke's son, Paul.

The Royal Neighbors of America held a party Tuesday evening. Refreshments were served by the committee.

River Junction

RIVER JUNCTION, Ia.—(Special)—Glen, Cletis and Dorothy Davis, Grant and Edith Stober and Musser, spent Monday evening at the J. E. Musser home.

Mrs. Effie Mathews, Mrs. Earl Hinkley, Mr. and Mrs. Ross Rayner and Beas Rayner were in Iowa City on business Wednesday.

Miss Emma Fountain has purchased the property in Hills from her brother and expects to move there in a few days. She has been living here with Mrs. Lizzie Higgins for the past nine months.

Mrs. Harry Merrifield called on Mrs. Lizzie Higgins and Mrs. J. A. Strober Saturday evening.

Wapello

WAPELLO, Ia.—(Special)—Mrs. Charles Stroup and daughter, Betty Lou, are spending the week in the home of the former's sister, Mrs. John Fogarty, Burlington.

Where Betty Lou is receiving treatments for ear trouble.

Mrs. Olive Johnson, who underwent a major operation at Mercy hospital, Burlington, is showing decided improvement. Her mother, Mrs. Margaret Horton, who was injured last Wednesday in an automobile accident near Mediapolis, was taken to the same hospital for treatment.

DENVER CENTER FOR MEETINGS

Colorado City Mecca For Convention Sessions

DENVER — (INS) — When the springtime in the Rockies Denver business men turn to the annual migration of pleasure seekers from all parts of the nation, who come to Denver to enjoy the cool summer weather and the scenic wonders of the Rockies.

Last year, according to Chamber of Commerce figures, tourists and other visitors spent \$7,000,000 in Denver during the summer season. This year an even greater volume of business is expected, due to the upturn in business conditions.

Conventions of state, national and international groups will bring at least 30,000 delegates to the city between May 1, and Nov. 1, according to preliminary estimates made by sponsors of the various gatherings. In addition to the regular delegates, the conventions are expected to attract many more visitors, relatives and friends of delegates.

Important among the conventions to be held there this summer will be that of the Brotherhood of Railway and Steamship Clerks, who hold their triennial meeting here from May 11 to May 23, with an expected attendance of 3,000.

Education associations fourth biennial conference, July 27 to Aug. 2, with 6,000 delegates, and the general convention of the Protestant Episcopal Church of the United States from Sept. 16 to Oct. 3, with 6,000.

Other conventions of importance to be held in Denver this summer include more than twenty organizations of varied interests and with attendance varying from 250 to 2,000. The Middle Western Association of Improved Benevolent Protective Order of Elks of the world and the state convention of the Colorado Council of religious education are expected to bring 3,000 visitors each.

More than twenty large conventions have been listed with the Chamber of Commerce for the period between May 1 and Nov. 1.

Fortieth Wedding Date of Edginton Minister Observed

EDGINGTON, Ill.—(Special)—More than 200 people gathered at the Presbyterian church basement Tuesday evening to celebrate the fortieth wedding anniversary of Rev. and Mrs. Hugh Robinson. Rev. Robinson has been pastor at Edgington for about 10 years.

Their daughter, Katherine, who is a teacher at Iowa City, came and turned to Iowa City the same evening. Other guests included Rev. and Mrs. Lacy, Rev. and Mrs. Moore, Rev. and Mrs. Ogilvie, Rev. and Mrs. Buck, Mr. and Mrs. Ralph Lemm, Rev. and Mrs. Van Drogen and Rev. Will Johnson, of Chicago.

Mr. and Mrs. Addison Rursch are the parents of a son, born recently.

Mrs. Edward Furr is patient in St. Anthony's hospital, Rock Island, where she underwent an operation Wednesday.

Mrs. Elmer Dunlap assisted Mrs. Adolph Dunlap with house work recently.

Twelve Iowa State Co-Eds Elected to Chemical Sorority

AMES, Ia.—(Special)—Twelve Iowa State college co-eds have been elected to Iota Sigma Phi, honorary chemical sorority. They are: Evelyn Blanchard, Charlton; Frances Cook, Ames; Ernestine Franz, Greenwood; Louis Haas, Madisonville, La.; Bernice Kumerth, Ames; Louise L'Engle, Ames; Anna Olson, Des Moines; Ruth Evelyn Scott, Dyer City; Gladys Timson, Loup City, Neb.; Maria Vermeulen, Petrusburg, South Africa; Louise Weidman, Webster City; and Isabella Williams, Oxford, Ohio.

Grinnell Students Will Take Part in Archery Contests

GRINNELL, Ia.—(Spec.)—Grinnell college women's archery classes have entered the second annual telegraphic women's intercollegiate spring archery tournament which is sponsored by the National archery association. The shooting must be completed during the period of May 17-24 inclusive.

Grinnell's team will consist of the eight women having the highest scores. In the tournament each contestant will participate in one full Columbia round. A gold medal will be awarded to each individual team member who makes a total score of more than 400. Tassels engraved with the year and N. A. A. collegiate tassel.

Ames Students Win National Honors in Landscape Contest

AMES, Ia.—(Special)—Six Iowa State college landscape architecture students captured all but one of seven possible awards in the Junior National Landscape Exchange problem from contest, judged in Cambridge, Mass. The problem, planning of a Chinese garden, was open to all schools in the United States.

Those placing in the contest are: Iris Ashwell, Chicago, Canada; John Aue, Ft. Madison; Frank Mattson, Eveleth, Minn.; Dale Hawkins, Hebron, Neb.; James Horridge, Mystic; and George W. Pope, Honolulu, Hawaii. The only other award was made to a student at the University of Wisconsin.

SHOW LAMP COLLECTION MUNICH, Germany

The Great German Museum has added an interesting feature to its exhibits in the shape of a collection of street lamps. The collection starts with the first street light used in Paris, a pitch basket. The old light is represented by an old rapeseed oil lamp. The third, gas light with five flames, was used in London in 1814. The collection includes lights down to most modern incandescent lamps.

MILFORD, Mass.—(INS)—Work has been started in a quarry here to fulfill the contract calling for approximately 90,000 cubic feet of pink granite necessary for the construction of the Roosevelt Memorial in New York. The memorial, which is to be the center of a group of buildings in the Natural History Museum group in Central Park west, will be about 300 square feet and five stories high. The entire project will entail a cost of \$7,000,000.

CHRIST CANVAS IS CONDEMNED

Shows Him in Midst of Modern-Day Crowd

LONDON—(INS)—A picture depicting Christ in the midst of a modern crowd has been submitted for this year's Royal Academy, which opens at Burlington House on May 4.

Photographic copies of this picture have already caused a sensation in art circles and if accepted for the exhibition the picture will undoubtedly be one of the most discussed works.

The artist is Mark Symons, of Reading, whose picture, "Where you there when they crucified my Lord?" caused much controversy at the Academy last year.

His picture for this year's exhibition is entitled "My Lord I meet in every London lane and street." The picture represents Christ teaching modern people in a modern town and their varied reactions to His Presence.

Behind Him are grouped a number of his followers, with St. Peter and St. John on either side of Him.

INSURANCE TAX ASKED

HARTFORD, Conn.—(INS)—The great insurance companies in Connecticut may be called upon to help the state raise \$4,000,000 needed to meet expenses for the next two years. The legislative finance committee has been asked to report favorably on a bill increasing the insurance taxes according to the market value of the companies' stocks. The taxes were reduced several years ago on a sliding scale, with a reduction effective every two years.

CHICAGO MAN IS VICTIM OF STOCK FRAUD

Retired Grocer Gives Swindlers \$37,000

CHICAGO — (INS) — Swindlers who mulcted Matthias Reinert, 75, Chicago retired grocer, out of \$20,000 cash and \$17,000 worth of liberty bonds were being sought today by the police of three states.

Reinert reported he was taking the baths at Martinsville, Ind.

When he met a pleasant chap named J. A. Kirk. When Reinert prepared to return to Chicago, Kirk volunteered to drive him in, and the retired grocer accepted the invitation.

As they were passing through Indianapolis, Kirk stopped his car.

"There's G. E. Mayo," he told Reinert. "He's one of the wisest manipulators in the stock market."

At first, according to Reinert, "Mayo" denied knowing "Kirk", but later admitted some recollection of friendship.

Mayo offered to let Kirk and Reinert in on a deal he was "putting over." Each man put up \$200, a broker's clerk was summoned, and the deal was on.

On the first transaction, Reinert said, the profit was \$1,400. A second operation netted \$4,500. Then Mayo announced that he was "piking" and gave the clerk a large order. In a short time the clerk

returned to tell him he had won \$300,000. However, before the money could be paid, he insisted they prove they had sufficient money to cover the margin in case they lost.

Withdraws Savings

To raise the sum demanded, Reinert came to Chicago, got as much money as he could, and

turned it over to Mayo and Kirk in a hotel in Gary. There was one more transaction, and Mayo announced that they were "wiped out." Rehnert was instructed to obtain an additional \$50,000 in Chicago and then met the other two in Toledo, where a "sure thing" would be ready.

Back in Chicago, Rehnert became suspicious and consulted the police.

He kept the Toledo rendezvous in company with a Chicago detective. Mayo and Kirk failed to appear.

MRS. W. HICKEY
DIES IN MOLINE

Mrs. Will Hickey, 55, formerly a resident of Muscatine, died at her home in Moline at 9 o'clock this morning after an illness of several years.

Mrs. Hickey nee Henrietta Kern was born here in September, 1875 and in 1903 was married to Will Hickey. In 1910 they moved to Moline, where they had lived since.

She is survived by the husband,

her mother, Mrs. Henrietta Kern of Muscatine; a brother, Charles Kern of Muscatine; two sisters, Mrs. William Fuller of Muscatine, and Mrs. Charles Cunningham, of Moline; a son, Francis Hickey of Moline and a daughter, Miss Frances Hickey of Moline.

Details of the funeral, which will probably be held from St. Mathias church here, have not been arranged. Charles Kern went to Mo-

line this morning on receiving the news of his sister's death.

Lessons on Poster Making Continued

Seven women were in attendance at an all day school on poster training conducted at the home of Mrs. Harry Houseman, by Miss Grayce

Today's school was led by Miss Stevens at the home of Mrs. Glen Cromer in Cedar township.

DISTRICT COURT
